The fuel consumption given in miles per gallon, energy consumption is in kWh/62 miles and the CO₂ emission given in grams per kilometre represent the combined values. In line with new European standards, the range shown displays the fuel consumption and CO₂ values from the smallest to largest wheel size available on the selected model.

The recommended on the road cash price includes delivery, BMW Emergency Service, number plates, first registration fee and vehicle excise duty. Where applicable, government grants and subsidies are not included in the on the road cash price displayed. All of the content has been put together with the greatest possible care. Despite this, BMW (UK) Ltd cannot be held liable for the information and prices contained being free of errors, correct, and accurate. No guarantee can be provided nor liability accepted.

These figures are for the basic model with the transmission offered in the basic version. They are determined using the prescribed measuring methods (Directive 80 / 1268 / EEC in its current version).

They do not relate to any one particular vehicle, nor are they part of any offer made, rather they are solely for the purpose of comparing different kinds of vehicle.
