

The Scorpio Reborn.

PRESENTING A FRESH CHAPTER IN THE TRAGIC TALE OF OTHER CARS.

The all new Scorpio. With 43 new features. In style, in comfort,
in performance. Make any path a pleasure, every drive luxurious
and highlight each road as you move along.

Tower lights
for other cars
to stare at,
to lust after.

Rear spoiler

To appreciate the new Scorpio, step around to the back. The eye-arresting tower lights extend to kiss the roof. Enough to leave other cars goggle eyed long after you're gone.

The rear spoiler is discreet and yet a show stopper. It wraps around the roof edge and illuminates in a string of lights when you step on the brakes. There's a utilitarian side to it. It comes with a nozzle that sprays the rear wind shield to keep it clean. But the best news is that this is not a luxury fitment; it's a standard feature.

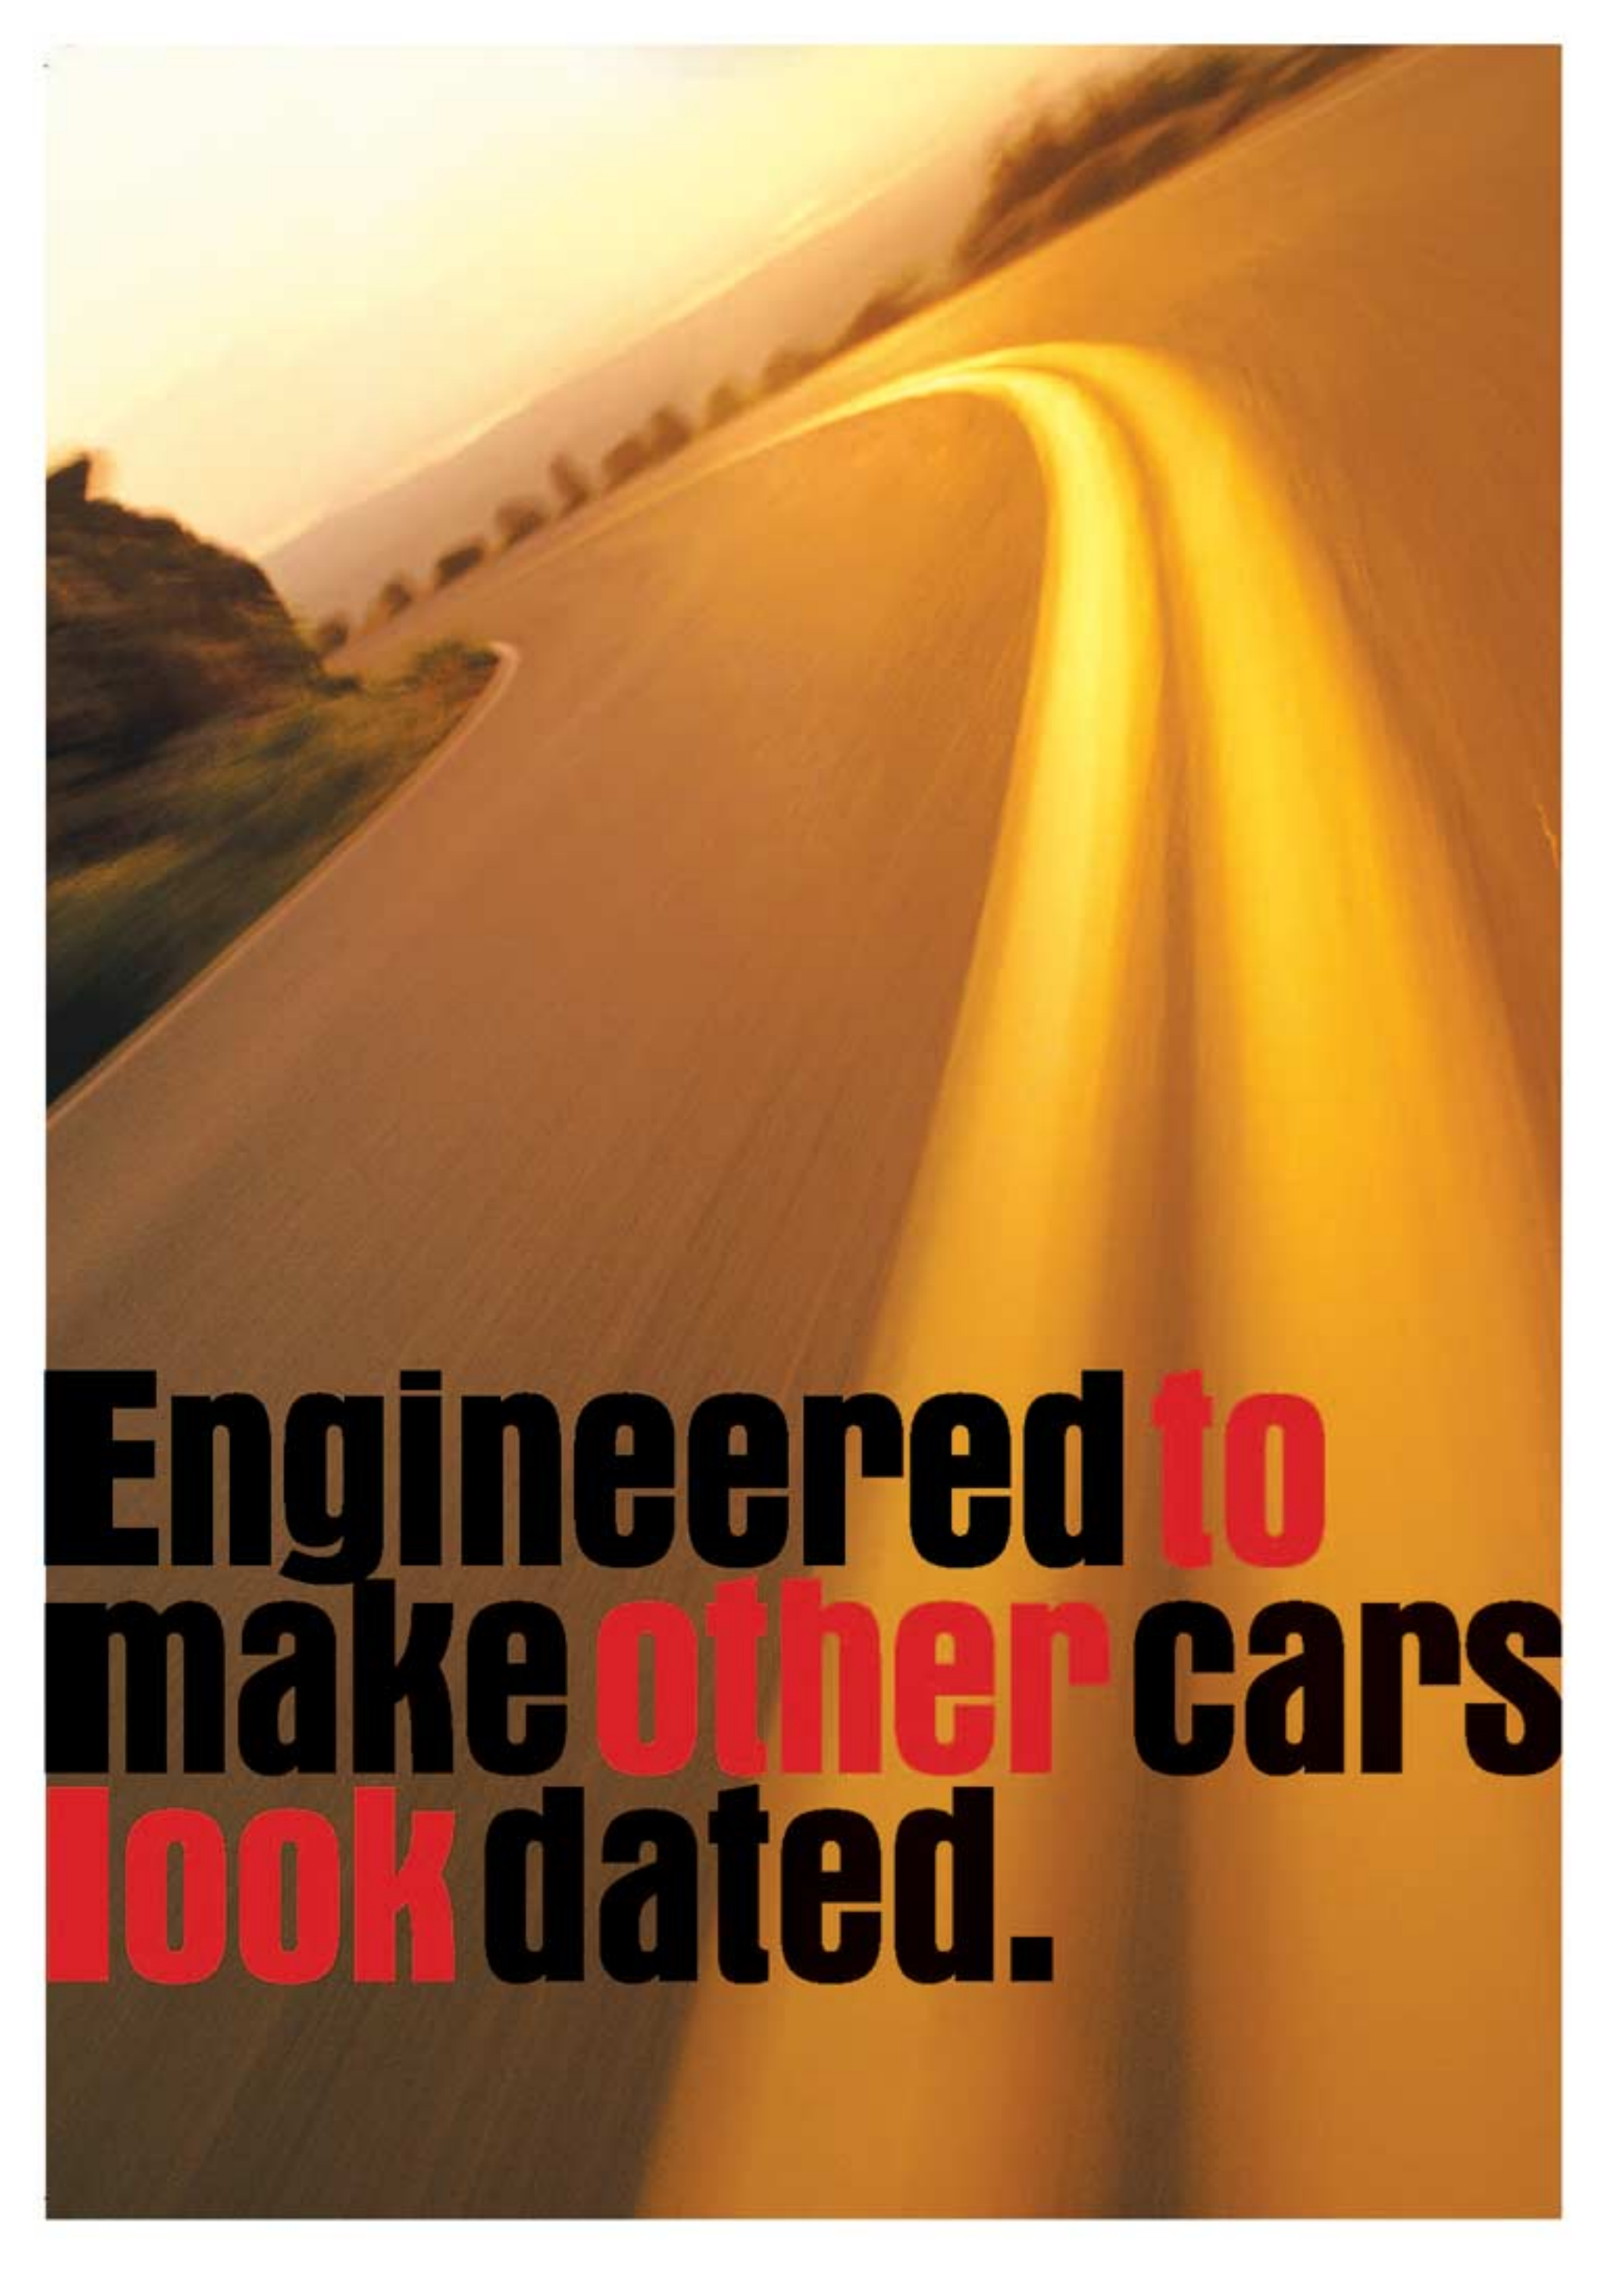

New scoop, new bumpers, new ski racks, new sidesteps...

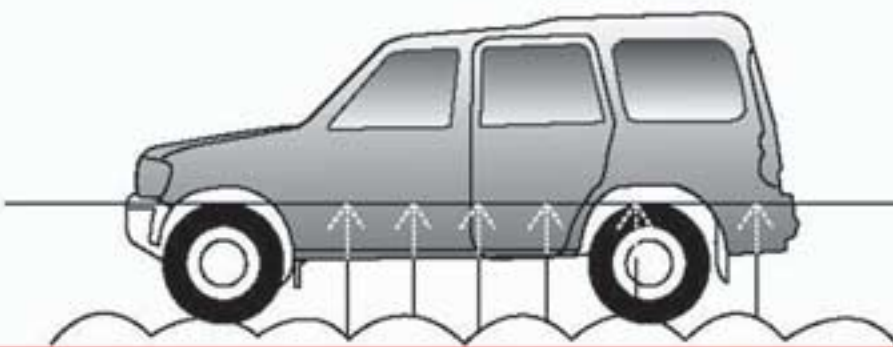

Any which way you look at this machine, you'll find new features. Feast your eyes on the bonnet; notice the sporty new scoop. If you can stop staring, move onto the bumper. It is edged with new taper down air dams that add a mean streak and take care of splashing water too.

Preview the sides. The new footsteps are actually built into the body. To give you a fluent form as well as added strength and stability. Now please look up, at the spanking new streamlined ski racks. Go ahead, strap on whatever your drive demands.

A photograph of a road curving into the distance at sunset. The sky is a warm, golden yellow, and the road is illuminated by a bright, glowing light trail that curves along its path. The overall mood is one of forward motion and modernity.

**Engineered to
make other cars
look dated.**

5-zone cushion technology prevents uneven roads from affecting your comfort.

NEXT GEN CRDE ENGINE. THINK OF IT AS A SURFACE-TO-AIR MISSILE UNDER THE HOOD.

It's cutting edge diesel engine technology at your command. The kind that lets loose tremendous power but only teeny weeny emissions. 7 seconds is all it takes to propel you from 0 to 60 kmph. Of course, having 28.3 kgm of torque and 115 bhp of power do help. Yet this engine is as quiet as a whisper. It gives you a drive that's high on pleasure and low on noise, vibration & harshness. All this without compromising one bit on fuel economy.

5-ZONE CUSHION SUSPENSION

LIKE END-TO-END CUSHIONS UNDER THE CUSHION SEATS.

The comfort of the independent front suspension is now complemented by the multilink rear suspension – the 5-zone cushion suspension. Where five links control the axle movement to move effortlessly with the varying angles of the road. Add to this the zero-friction spring that soaks up any surprises the road may throw at you. And you have a vehicle that lulls you into believing roads have never been anything but smooth. However that's not the only secret behind the unmatched drive quality. The expertise of one of the most respected names in automotive engineering - Lotus Engineering, adds another layer of comfort to the new Scorpio.

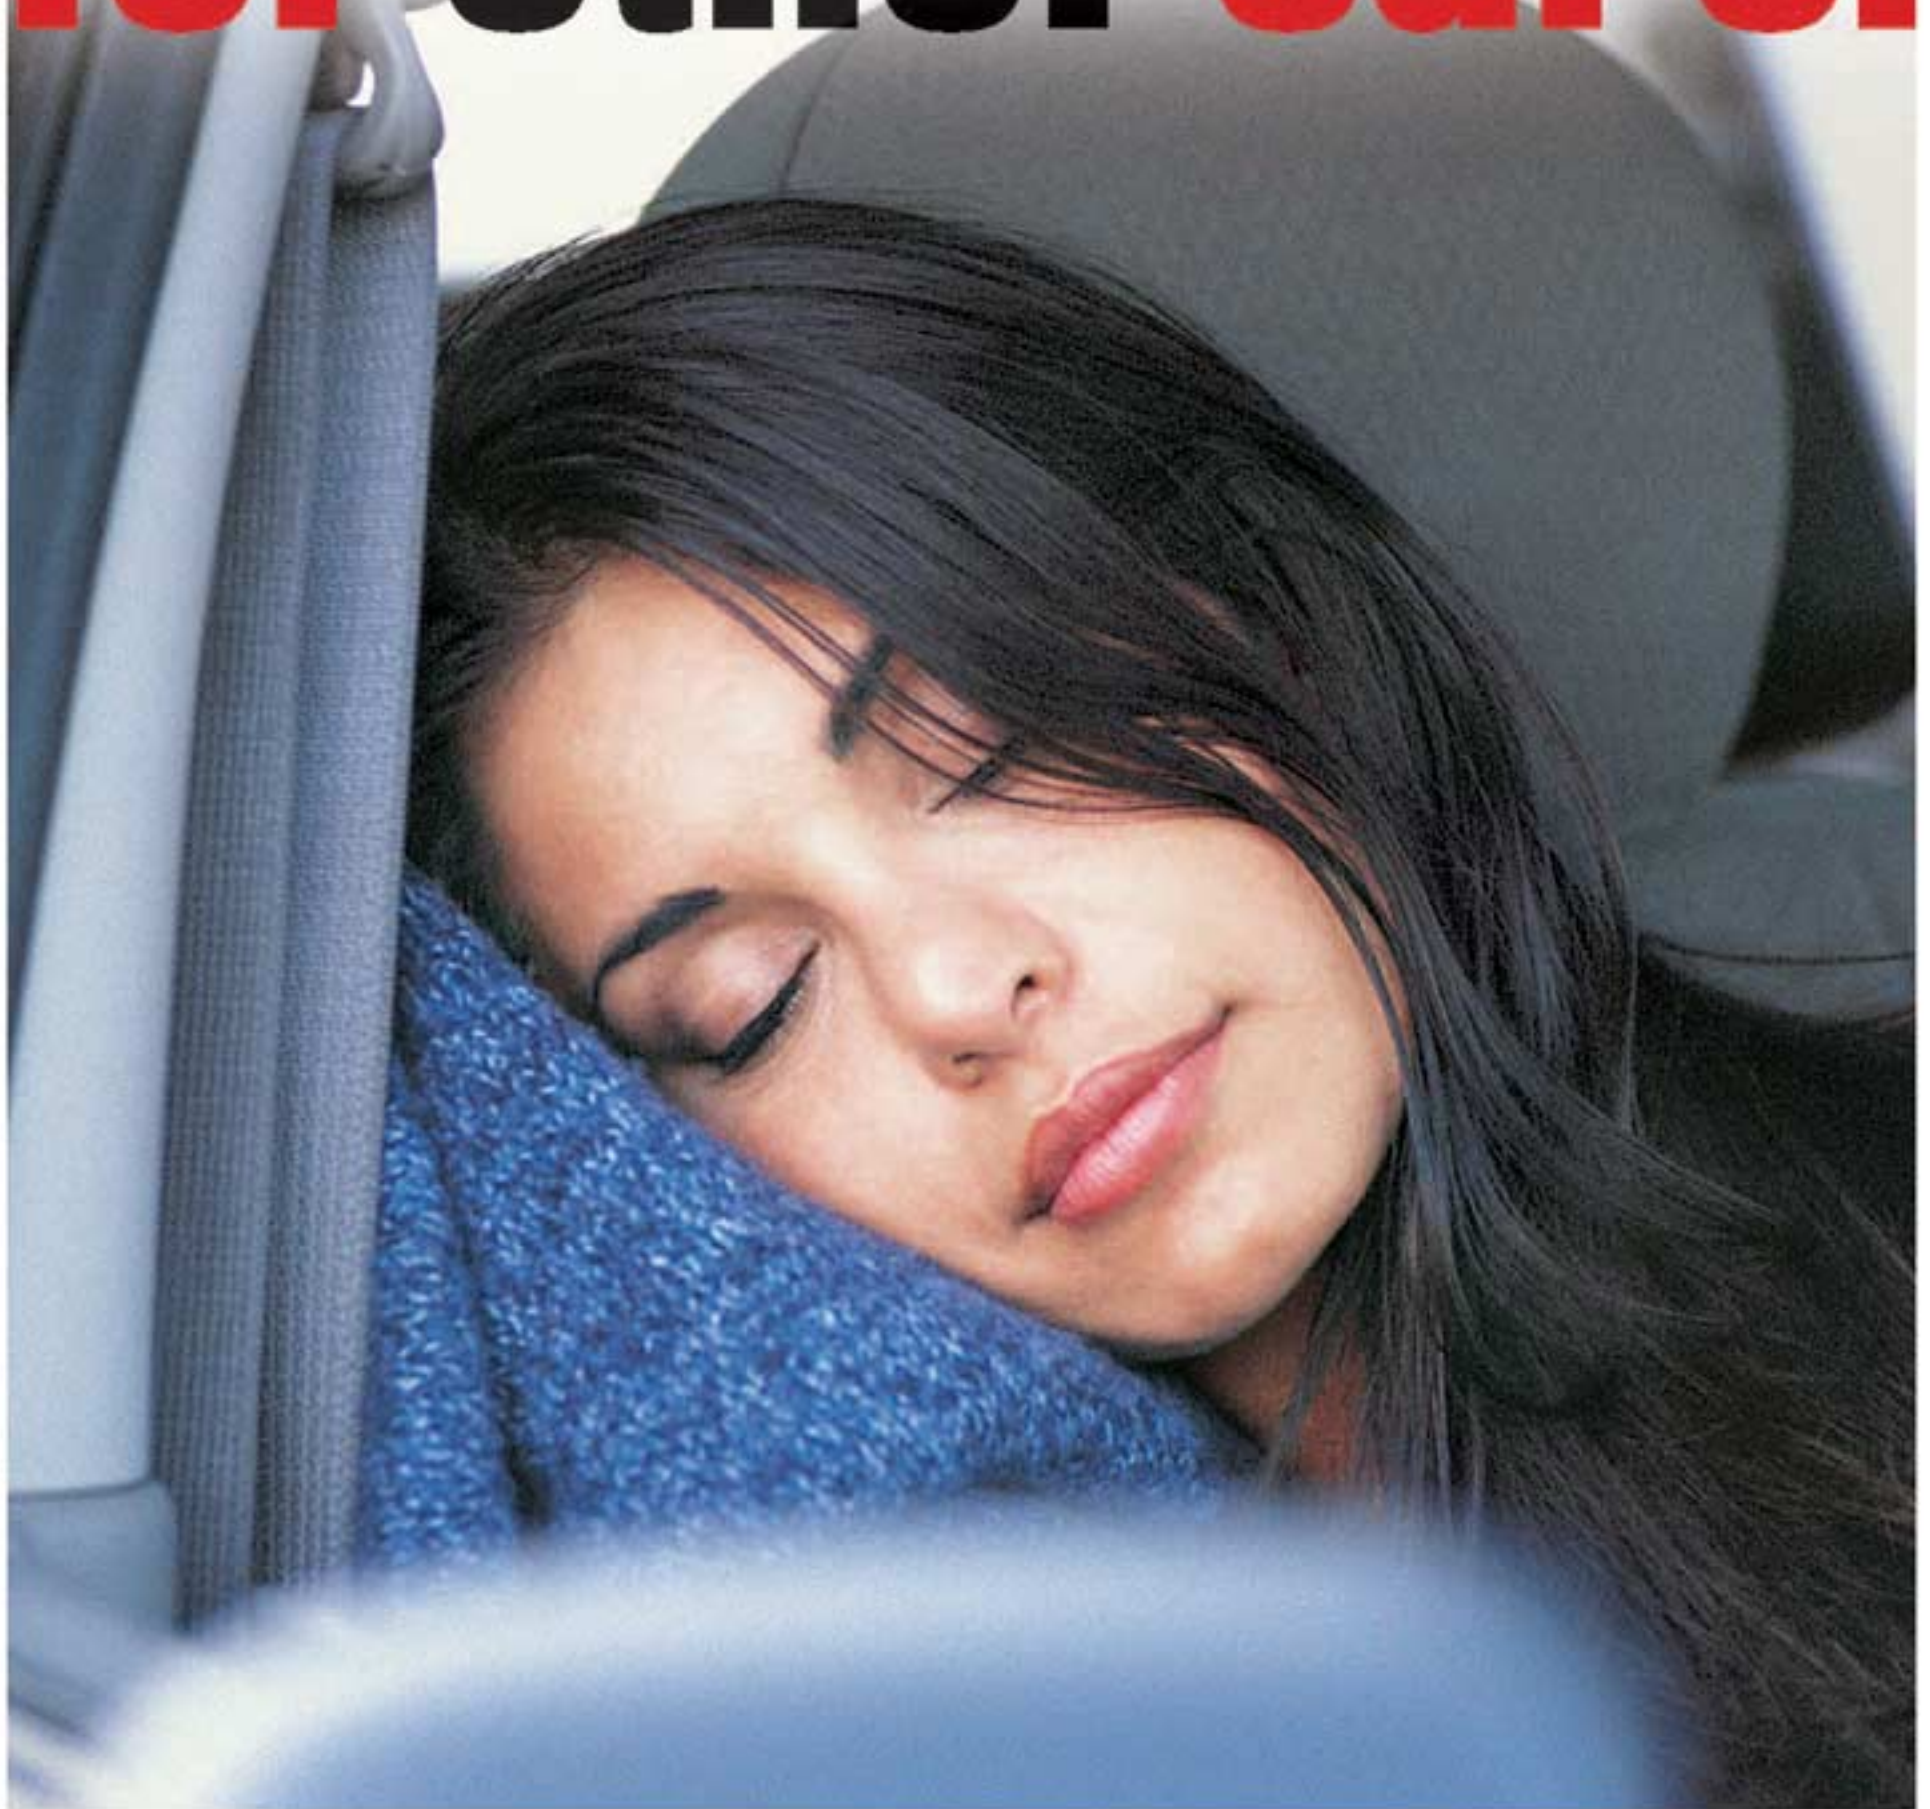

Crash and crumple zones in the front and side, and side intrusion bars keep impact away from you in case of a collision.

TALKS. TO MAKE YOUR DRIVE AN EXPERIENCE.

This car welcomes you on board. Literally. A gentle voice actually greets you when you turn on the ignition. It doesn't stop there. The same voice tells you when a door is not shut properly, if a seat belt is not strapped on, when the fuel reaches reserve capacity and other such situations that require your attention. Yes, a sophisticated Voice Assist System is at work here. To make your drive safer, to give you a driving experience unlike any other.

New luxuries.
New traumas
for other cars.

SLIDING SEATS, RECLINING SEAT-BACKS, ARMRESTS . . .

Find comforts you wouldn't find in most other vehicles. Like the mid row seats that slide. To give you more legroom and space than ever before. These seats also have a newly designed, broader armrest in the middle. Akin to the individual armrests in the front. Then again, all seats exhibit an insightful understanding of the typical Indian frame. Experience the ample back support and luxurious comfort they provide and you would assent with a vigorous nod. (You can even fold the rear seats to make more room.) All this comfort now comes clothed in classic Jacquard dual tone upholstery. With a choice of shades on offer - soft beige or quiet blue. You choose.

Slide the entire middle row for greater legroom. (Only in 8 seater.)

Fold up seats and make room as and when you want.

Get extra storage space by folding up the third row entirely.

Luxuries (contd.) Other cars' traumas (contd.)

- 10 Mobile holder
- 11 Bottle holder

BUILT AROUND YOU. MAKES OTHER CARS GO ROUND.

Everything in this car is ergonomic and elegant. The steering tilts to your convenience. The rotary knobs make controlling the heavy duty HVAC a breeze. All AC vents in the front come with a joy stick that makes them easy to manoeuvre. And the rear vents now face higher and their throw goes farther behind.

Ask for a luxury, it's already there. A 4 speaker CD/MP3 player gives a new dimension to your favourite songs. The pen drive, USB and SD card ports allow you to access and play whatever new music catches your fancy. And it's something other cars never even thought of.

This is a car that's completely at your command. The power window controls, electric fuel lid opener, defogger are all an arm away. You'll find 12V mobile charging slots for the front and the rear seat rows. The instrument panel is a pleasure to read. As much for its clarity as for its style.

You'll discover this car has brains. An intelligent combination switch works the fog lamps, rear windshield wiper and the front wiper. The front wipers are no less. They change wiping intervals according to your convenience. The aesthetics and attention to detail keep pace. Door trims are soft to the touch. Grab handles are designed to be snug. And the ignition key slot has a ring around it that glows in the dark.

Anything that meets the eye is tastefully colour coordinated and striking. Now please stop reading and take a look. You'll agree there's not much room for disagreement.

- 12 Cup holder
- 13 Controls for power windows

Tilttable steering system

TAKES CARE OF YOUR SMALL NEEDS TOO.

You'll discover this car pays attention to your need for space. Whether it's the roomy interiors or the discreetly tucked away provisions for storage. There are numerous mobile phone slots, bottle holders, can/cup alcoves and multi-utility bins. Even an ashtray that can be moved around. And a glove box that opens without a whisper to reveal cavernous space.

The centre bezel has space for your PDA. A second DIN audio slot gives you more storage space, just in case. There's a map pocket for your off-road expedition plans. And tubeless tyres to offset any plans the road might have for you.

14 Movable ashtray

- 1 AC front vents
- 2 DIN slot for extra storage
- 3 Electric fuel lid opener
- 4 Space for PDA
- 5 Defogger
- 6 Mobile charging slot
- 7 AC rear vents
- 8 Mobile charging slot
- 9 Can holders
