

# **CONVENIENT**

#### **DIRECT DRIVE TRANSMISSION**

Similar to the ease of an automatic transmission, the direct drive transmission with a single speed gearbox and sophisticated speed management of the motor allows you to cruise through traffic effortlessly without shifting gears.

#### **HOME CHARGING**

Charging the eVerito is as simple as charging your mobile phone. Just plug it into a 16 amp plug point and get a 100% charge in just 8 hours 30 minutes\*\*.

#### **FAST CHARGING**

The eVerito is fast-charging ready. Use this feature for extended journeys and get upto 80% charge in 80 min<sup>\*</sup> at a Fast Charging Station.

#### HILL-HOLD CONTROL

A unique safety feature which prevents the car from rolling backwards on an incline.

# **CONNECTED**

#### **TELEMATICS**

The Telematics feature keeps track of 190 vital vehicular parameters and allows for remote monitoring and diagnostics.

It periodically sends statistics about charging patterns, kilometres travelled,  $CO_2$  saved, earned ECO points and more.

#### INTELLIGENT ENERGY MANAGEMENT SYSTEM

The eVerito's Intelligent Energy Management System, provides real-time updates such as charging status, distance-to-empty and more. It even ensures optimum range, monitors battery voltage etc, keeping you well informed at all times.

### **REVIVE®**

This **first in world** emergency feature gives you 8 kilometres of extra charge if your car is low on energy. It can easily be activated from the instrument cluster, enabling you to drive to the nearest charging point with ease.

# **COST EFFECTIVE**

#### **LOW RUNNING COST**

Say goodbye to ever fluctuating fuel cost. The running cost of the eVerito is less that ₹1.00/km\*\*\*

"Considering cost of electricity ₹7/unit. The car needs 13.91 units for full charge, and has a range of 110 km.

### LITHIUM ION BATTERIES

The eVerito comes with a 72V battery pack of long-life, maintenance-free lithium-ion batteries.

### FORWARD/BOOST MODE

The eVerito also has a Boost mode for extra power.
