INTRODUCING
A NEW INNOVATION
IN STYLE & LUXURY

Advanced Remote Control

On/Off: Press this button to select fan speed when you select AUTO. The fan speed is automatically adjusted according to room temperature. You can also manually select the desired fan speed from four settings: quiet, low, med, high.

Mode: With this button the operating mode of the air conditioner can be selected. A Automatic (fan only) or Dehumidification only.

Swing: Press this button to swing the horizontal louvers. Press it again to stop.

Sleep Timer: Press this button to set on and off times or program a setting to repeat every 24 hours.

Timer: Set on and off times or program a setting to repeat every 24 hours.

Eco Mode: Press this button to start the Eco operation.

Clock: A service engineer can use this button to check the location of a problem.

Self Diagnosis (CHK)

Available in 1.5 & 2.0 ton with remote

Auto Restart: The remote control provides a very convenient automatic stop operation, programmable for 1, 3, 5, 9 hours.

Swing: The remote control allows you to set the time when you want your air conditioner to start and stop operating. This can be operated automatically on a daily basis.

Advance Air Flow: The horizontal louvers provide wider air flow, for more comfort throughout your room. The remote control gives you 11 steps of control over the air flow. The position & distributes air evenly around the room.

Turbo Cooling: At the press of a button, this mode makes the fan work at its full speed till the time desired set temperature is achieved.

Self Diagnosis: For your convenience, each unit is equipped with a smart self-diagnosis system that will indicate problem areas, enabling fast and effective repair and maintenance.

ECO MODE: At the press of a button this mode automatically controls the room temperature, fan speed & operation.

Rotary Compressor: Robust Rotary Compressor is designed to perform efficiently even under extreme climatic conditions.

Automatic changeover (Cool/Dry): The remote control provides a very convenient automatic stop operation, programmable for 1, 3, 5, 9 hours.

Self Diagnosis: For your convenience, each unit is equipped with a smart self-diagnosis system that will indicate problem areas, enabling fast and effective repair and maintenance.

Washable front panel: The remote control provides a very convenient automatic stop operation, programmable for 1, 3, 5, 9 hours.

Dry (Dehumidifying) Function: The remote control provides a very convenient automatic stop operation, programmable for 1, 3, 5, 9 hours.

Advance Air Flow: The horizontal louvers provide wider air flow, for more comfort throughout your room. The remote control gives you 11 steps of control over the air flow. The position & distributes air evenly around the room.

Daily Timer: The remote control allows you to set the time when you want your air conditioner to start and stop operating. This can be operated automatically on a daily basis.

Daily Timer: The remote control provides a very convenient automatic stop operation, programmable for 1, 3, 5, 9 hours.

Advanced Filtration Technology

Nano Silver Ginseng Filter

Nano Silver Ginseng Filter consists of anti bacteria filter & ginseng filter removes odour, deactivates bacteria, fungus & mould.

Anti Bacterial Filter

Test bacteria - Escherichia Coli ATCC 25922

Ginseng

Pleasant aroma
Subtle revitalising and energising benefits

Nano Photo Copper Zinc Filter

Nano Photo-Copper Zinc is a powerful deodorising and de-VOC (Volatile Organic Compounds) filter. Using Nano-sized particles increases performance while copper allows strong performance without a source of light. Nano Photo-Copper Zinc also deactivates bacteria and mould.

Advanced Features

Self Diagnosis: For your convenience, each unit is equipped with a smart self-diagnosis system that will indicate problem areas, enabling fast and effective repair and maintenance.

ECO MODE: At the press of a button this mode automatically controls the room temperature, fan speed & operation.

Rotary Compressor: Robust Rotary Compressor is designed to perform efficiently even under extreme climatic conditions.

Eco Mode: At the press of a button this mode automatically controls the room temperature, fan speed & operation.

Turbo Cooling: At the press of a button, this mode makes the fan work at its full speed till the time desired set temperature is achieved.

Self Diagnosis: For your convenience, each unit is equipped with a smart self-diagnosis system that will indicate problem areas, enabling fast and effective repair and maintenance.

Advance Air Flow: The horizontal louvers provide wider air flow, for more comfort throughout your room. The remote control gives you 11 steps of control over the air flow. The position & distributes air evenly around the room.
