Welcome to a unique car service experience

A parallel universe of care and service

For the past 60 years, the Mahindra Group has constantly endeavoured to raise the standards in the Indian automobile sector. Mahindra FirstChoice CarXSpace is yet another pioneering effort on our part to continue delivering the same level of quality and trust.

Mahindra FirstChoice CarXSpace is every car's personal paradise. A place where cutting-edge technology blends seamlessly with high-quality service to create a one-of-a-kind experience in car service.

It brings together a unique car service experience for all brands of cars under one roof. We offer hi-tech car service with the state-of-the-art equipments and reliable car service by expert technicians in minimum possible time. We use genuine spare parts and make sure that we provide great service at a honest price.

Over the next five years, we plan to open 350 Mahindra FirstChoice CarXSpace service outlets, thereby ensuring quality car service to every car owner across India.

Experience a new dimension in car service technology

We, at FirstChoice CarXSpace, believe that just like human beings, cars also deserve to be in good health all the time. So, to give your car what it deserves, we have some technical checks, designed for in-depth analysis.

▶ State-of-the-art technology ▶ Expert technicians to handle multi-brands of cars

▶ Smoking is not good for your car

Now you can be free from the guilt of polluting the environment. At FirstChoice CarXSpace, we check your car for the level of smoke emission and can fix it.

▶ Monitoring the heart of your car

A one-of-a-kind gizmo, the Multi Scanner is a smart instrument that conducts an in-depth analysis of your car's engine and tells us about your car's health status and service requirements at a single glance.

▶ All clear inside your car

Injection system is the lifeblood of your vehicle. If something clogs it, the performance of your vehicle is affected. Our special fuel injector cleaner measures the injector's fuel flow ability and also tunes the engine fuel system. Keeping it clean and in top form.

▶ The perfect stance

All rides on your car's wheel alignment. To ensure that your wheels are perfectly aligned, we have employed a hi-tech, Bluetooth enabled wheel alignment set up that leaves no margin for error as compared to conventional touch-based wheel alignment.

▶ Where does all the fuel go

If that's what you've been thinking all this while, don't worry. Our latest fuel average calculator tells you exactly the number of kilometers your car turns out per litre of fuel.

▶ Okay in 5 minutes

When you get your car to us, we put it on the engine analyser that is like a specialist of car health checks. It will tell you in just 5 minutes what exactly is wrong with your car engine and we will immediately get down to correcting it.

Relax. Enjoy your coffee,
while we get your car ready

Car Shampoo
Strictly no harmful detergents

Elevating car care to a higher ground

We believe that cars need love, care and respect. That's why we go great lengths to give your car the care it really deserves.

► Genuine parts ► Honest pricing

► The gentle and caring touch

Just like your skin is so important for you, so is the paint job for your car. That's why to protect it from any harm, we use specialised car shampoo, and not detergents, to clean your car.

Before Service

After Service

► Pictures are worth a thousand claims

Seeing is believing. To assure you that only genuine spare parts are fitted in your car, we have come up with an ingenious idea. Along with the bill, you will get photographs of your car before and after service, so that you know exactly what has been changed in your car.

► Half-century in a single ball

A battery of tests, 50 to be precise, conducted with state-of-the-art equipments and expert technicians make sure that not even a single fault goes undetected.

► Softness does it

At FirstChoice CarXSpace, we make sure that nothing hurts your car. We have installed a state-of-the-art treatment plant, which produces soft water that's gentle on your car's body and protects it from harm.

► Who said car service should be boring

Now every time you go for car service, you will be looking forward to the experience. Relax in our lounge, taste a great cup of cappuccino or leaf through entertaining magazines. Now there's so much more you can do while you wait.

► The lounge has eyes

Here's another marvel of technology. Now your car will be never out of sight. Watch your car being serviced in our service bay via CCTVs, without leaving the comfort of the lounge as you sip on to a delicious cup of coffee.
