

Everyone and everything you've ever loved,
right by your side, on every drive.

BECAUSE WE LIKE TO CARRY OUR WORLD WITH US.

Indigo
Marina

A CAR THAT COMBINES THE LUXURY OF A SEDAN, AND THE CONVENIENCE OF A MULTI-PURPOSE VEHICLE.

CARRY YOUR WORLD IN SPACE

The Indigo Marina offers you endless solutions to carry your world. Smart designing of the interiors allows for practical storage options. Coins, maps, sunglasses, magazines – they all have their own little corner in the car. Discreetly placed so as not to hinder your comfort, yet conveniently located within easy reach.

Then you have 670 litres of integrated luggage space, accessible from within by folding the retractable parcel shelf or just stowing it away. If you require more, simply flip the rear seats forward. This increases the luggage space to 1370 litres, adequate enough to carry any oversized item without a hitch.

And finally, there's the cabin, which carries forward the spaciousness of its sedan sibling - the Indigo, so that you and your companions can drive around with your world in absolute comfort.

CARRY YOUR WORLD IN STYLE

The body style of the Indigo Marina makes it stand out anywhere. The backward sweep of the roof dips slightly at the rear to merge seamlessly with the curvaceous, clean tailgate. The glass house provides a great all round view with the integrated rear, having a pillar-less look, accentuated by full length vertical 'D' pillar and clear lens tail lights. Two sporty roof rails, chrome embellishments at the front and the rear, clear lens tear drop headlights and side indicator lights heighten this exterior appeal.

At 4130 mm, the Indigo Marina is quite compact, and is yet roomier than more expensive sedans. The interiors wear a chrome-lined dual dialed instrument panel with digital odometer and telltale lights to help you stay connected with your drive. While the leather-wrapped steering wheel and gear knobs, colour coordinated trims with seats, doors and dashboard provide a luxurious feel inside. With its style and elegance, the Indigo Marina is guaranteed to make you feel special every time you step into the car.

CARRY YOUR WORLD IN SAFETY

The Indigo Marina comes with the reassurance of meeting European full frontal, offset partial and rear crash impact safety norms. Its 1100 kg kerb weight brings the car to the ground, while wide 14 inch wheels provide better road grip and stability. The high driving position offers you a complete all round view of the road ahead, making the car one of the safest to drive on the road.

In the event of an accident, the Marina envelops you with a ring of protection. The steering is collapsible, the glass shatter proof, with anti-submarine seats in the front to ensure passenger protection. At the same time, energy absorbing bumpers, front crumple zones and side impact beams on all four doors further secure the rigid steel cage. Also, there are the ELR type seat belts, which prevent you from harm during any rapid deceleration of the car.

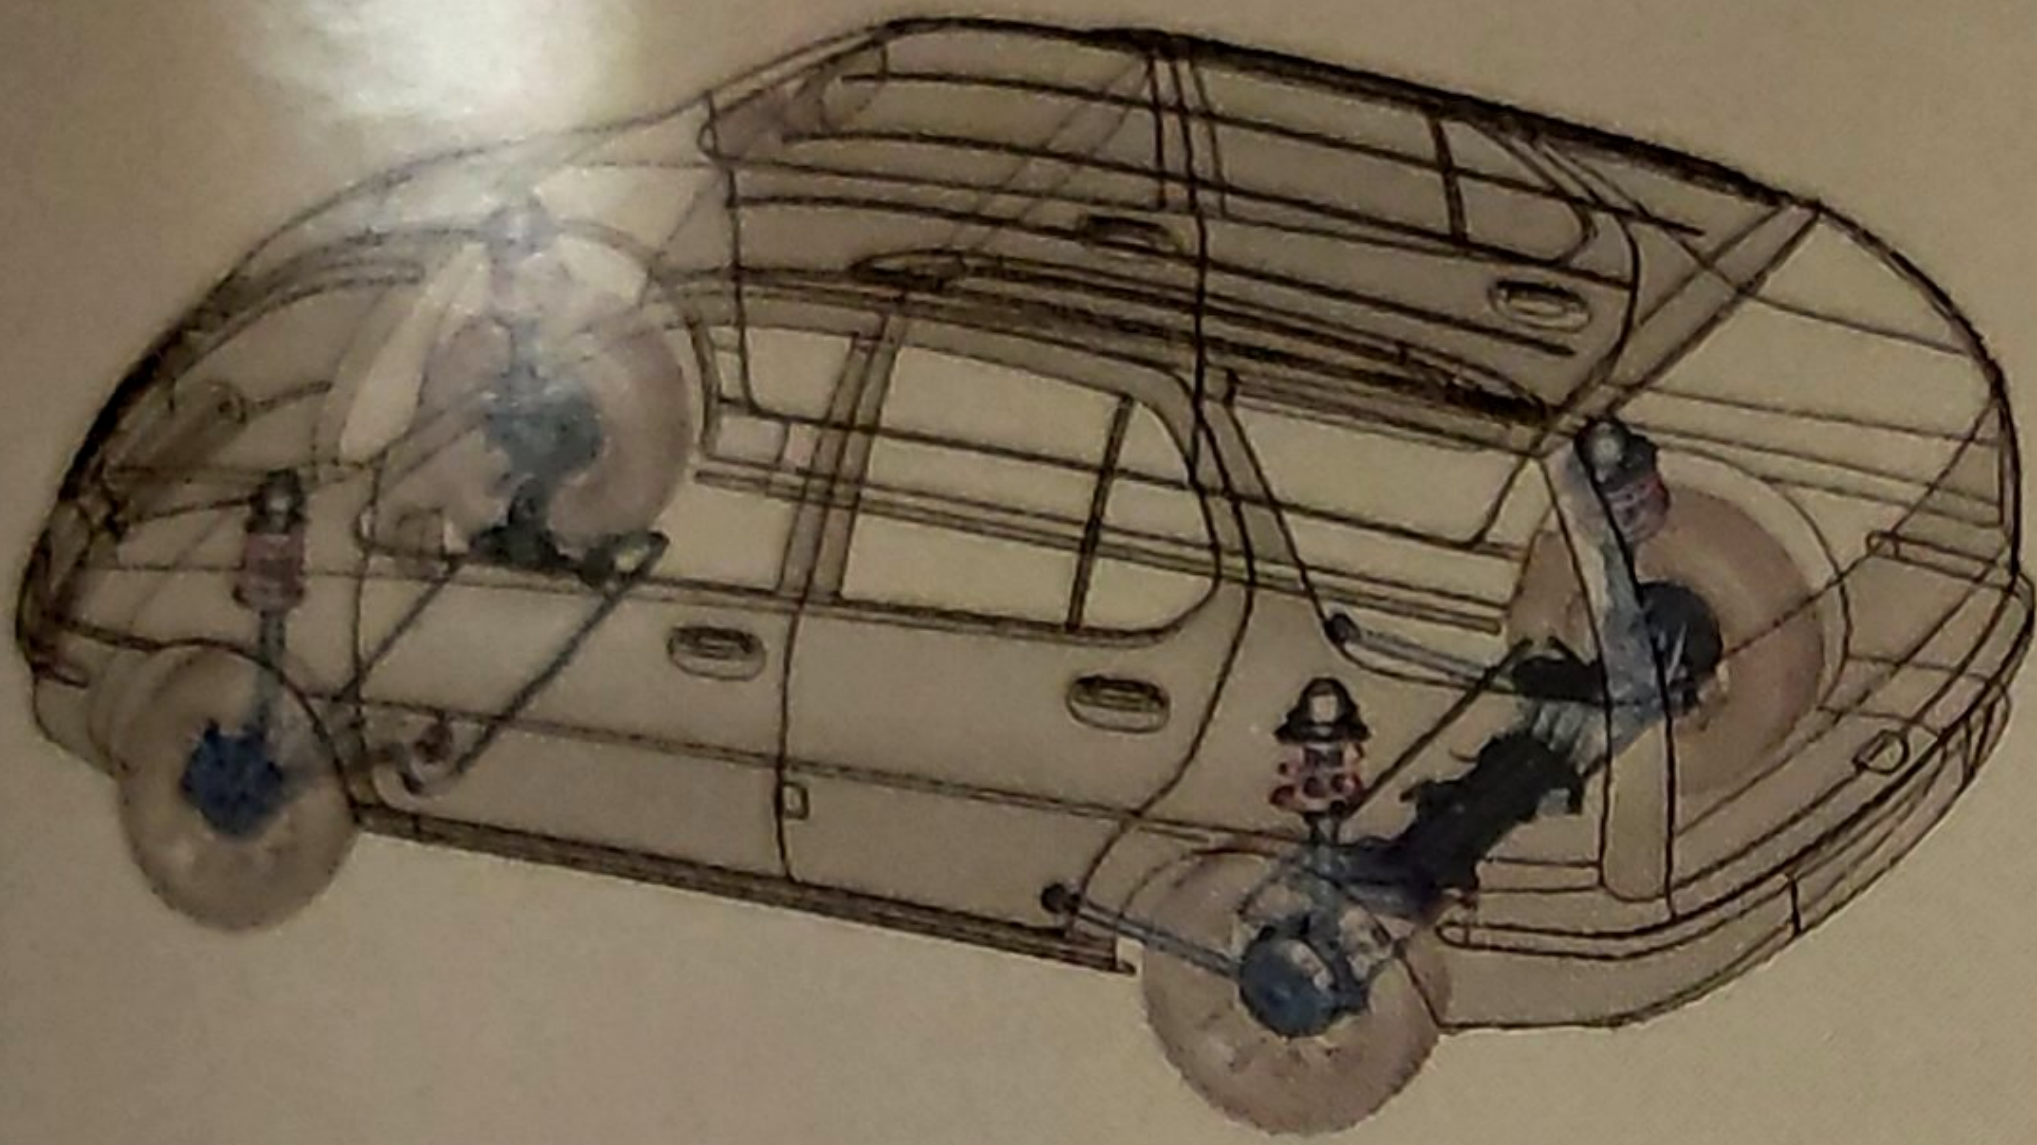

CARRY YOUR WORLD IN COMFORT

The Indigo Marina is powered by the tried and proven 1.4 litre high performance 85 PS petrol or the highly fuel efficient 62 PS diesel engine. On the inside, the cabin noise, vibration and harshness of the drive train is kept to a minimum for enhanced passenger comfort.

Driving is also a pleasure, with power assisted steering and a short turning circle radius of just 5 metres. Power windows for all four doors, a powerful HVAC, two power sockets (one each in the front and rear), rear window defogger with wash and wipe facility add to the sense of luxury.

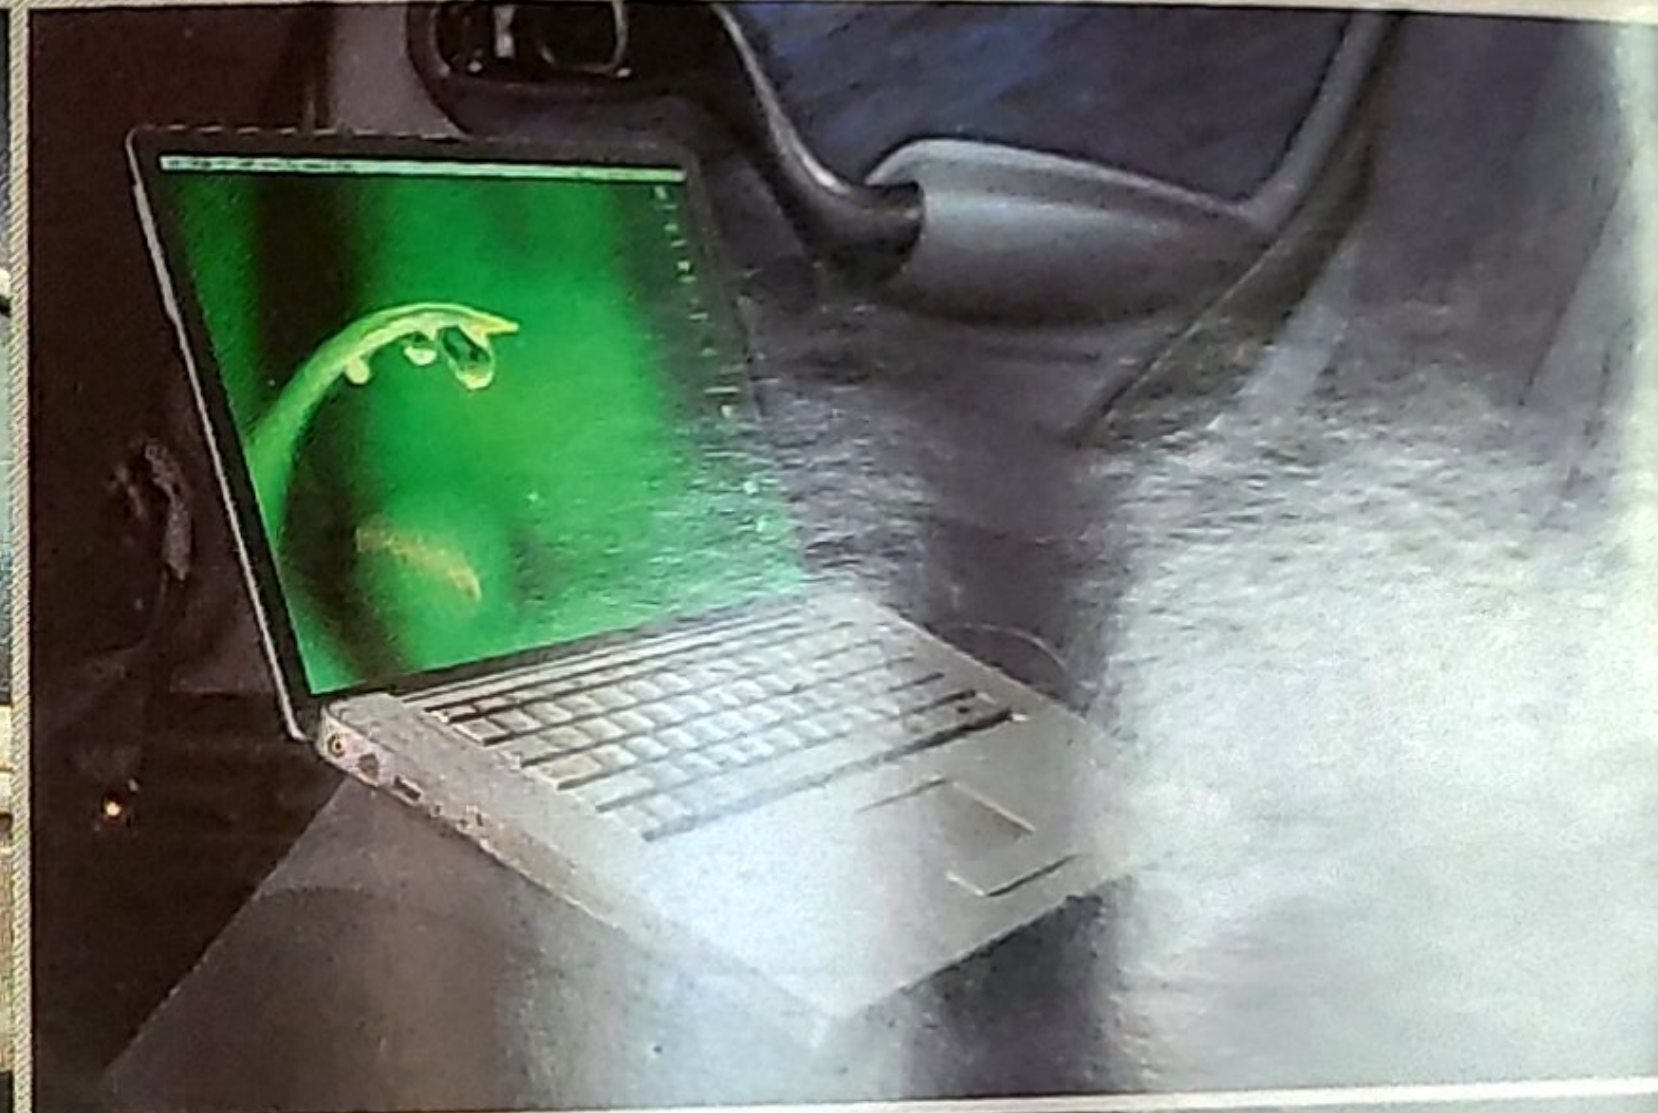

Rear seat comfort is the best in class, with independent waterfall type headrests for all 3 passengers. The unique 3-link independent rear suspension and gas filled shock absorbers isolate road imperfections and provide a comfortable ride.

The doors open 90 degrees, allowing you and your companions to easily enter and exit the car, with well contoured seats at a comfortable height. The low sill height ensures that baggage can easily be loaded and removed without straining your back.

SUSPENSION:

Front - Independent McPherson strut with anti-roll bar.
Rear - Independent 3 link gas filled McPherson strut with anti-roll bar.

SPECIFICATIONS

Dimensions		Engines	
Length (mm)	4130	Petrol	1405 cc MPFI Petrol Engine. Max. Power - 89 PS @ 6000 rpm. Max Torque - 11 Kgm @ 4000 rpm.
Width (mm)	1625	Diesel	Turbo Charged 1405 cc Indirect Injection Engine. Max. Power - 62 PS @ 4500 rpm. Max. Torque - 12.5 Kgm @ 2500 rpm.
