

SMART & SMARTER

PRESENTING THE NEW FORD **FIGO**

Feel the difference

Kinetic Design

The large trapezoidal lower grille, sloping roofline, large day-light opening and sculpted side panels are all kinetic elements that give the Figo its signature look and the dynamism to make it seem in motion even at standstill. Adding to this is the imposing appeal of the Figo, courtesy to its planted and sure footed stance and a wide, muscular and sturdy look that inspires confidence and implies safety.

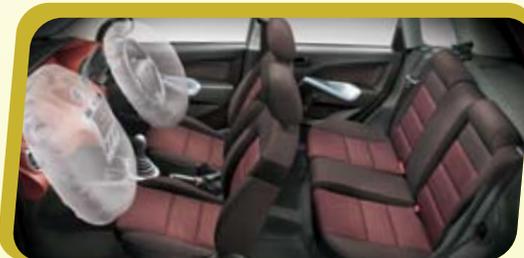

Best-in-class Ride and Handling

Slip behind the wheel and you'd get the feel of a nimble, well-engineered steering and suspension system. The steering is light and precise with superb sense of control. The suspension has been optimized to offer comfortable ride without compromising on body roll and handling.

Best-in-class Air Conditioning

The extra large compressor on the Figo ensures that the interiors cool twice as fast as competition cars. Tested in a wide range of ambient temperatures up to 49 degree Celsius.

Safety

Ford's high standard of safety and integrity in structural design ensures that Figo is safe as a cocoon. Figo's confident braking is further enhanced through ABS with EBD letting you steer clear of trouble. Front Dual Airbags are also standard on the Titanium series to protect you in case of any eventuality.

Bluetooth Connectivity

Simply pair your Bluetooth mobile with the audio unit and start a conversation. Pair up to 4 phones and access full phone book, dialled numbers, received & missed calls on the audio display. You can mute the call, switch to Privacy Mode, get second Call Alerts and SMS Alerts without reaching for your phone. You can also stream music from your phone.

Best-in-class Boot Space

Swallows practically anything you can throw at it, the 284 Litre boot is just perfect for shopping or airport trips. The rear seat can be folded flat for that odd-sized souvenir from a road trip.

Vibrant and Spacious Interiors

A vibrant coral red theme runs from the Instrument Panel through to the seat accents and backlit illumination giving the Figo interiors an appeal that's hard to resist. The Figo interiors also let you stretch out with plenty of leg and head room. Silver accents and a high quality of fit and finish embellish this spacious cabin. You can choose between Coral Red and Ebony Black IP on ZXI and Titanium series while Ebony is standard on other series.

INTELLIGENT FEATURES

Lane Change Indicators

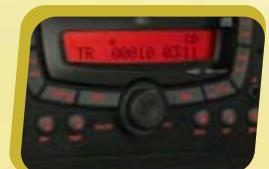

A single flick of the indicator stalk flashes the turn lamps thrice indicating your choice of lane.

Rapid Deceleration Warning

Sudden braking at speeds greater than 96 kmph will activate the hazard warning lamps to warn trailing drivers.

Speed Sensing Volume Controls

You can set the speed sensing volume control to compensate road noise automatically as you gain speed.

INTELLIGENT FEATURES

Smart Programmable Remote Key

Smart Programmable remote key that allows you to unlock all four doors or just the driver's door. You can also open the boot through a button on the key.

Distance to Empty

Tells you how many kms you can go with the available fuel in tank.

6 Speed Intermittent Wiper

Choose from six different speeds to cope with the intensity of rainfall.

Intelligent Central Locking

Drive away locking and ignition off unlocking is smart and convenient. Auto relocking and crash unlocking ensures security and safety.
