HONDA
The Power of Dreams

BRIO
It loves you back

'I'm made for you.'

*'You can do all you want for love
You can do anything.
But there can't be an I love you
without I love you too.
If you have three golden words,
You need another*

*Coz what's an I love you
Without I love you too.*

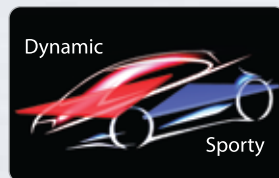

*Love is a two way street
You can only go there if you got someone to meet
There can't be an I love you
Without I love you too.*

*No, never be an I love you without
I love you too.'*

'Because I want your love at first sight.'

If love can find an expression in geometry, it would be a sporty double triangle. That's the unique idea behind the supremely classy design of the Honda Brio. The edgy chrome grille and fine character lines rising up from the dynamic headlights are a tribute to Brio's love for you. Complementing the character of the front are its sides which are created to exude a wave of vibrant energy. Every bit of its exterior, from the protruding fenders to door mirrors with extra depth, is designed aerodynamically so that when you want to talk to the wind, you do it with Brio.

'Double Triangle' exterior design concept

Wide Stance for robust and stable driving

Captivating premium Front Chrome Grille

Large Headlamps merging with Character Line

Sporty, lightweight and aerodynamic Alloy Wheels for enhanced style

Bold Character Lines convey energy and liveliness from nose to tail

Stylish Rear Combination Lamps merging with the Rear Hatch give a composite look

Futuristic, lightweight and functional Rear Hatch adds to visibility and fuel economy

'Room enough for you, me and us.'

The Brio is a testimony to Honda's '**Man Maximum, Machine Minimum**' principle that believes in maximising space for you and minimising space taken up by the machinery. The Brio's interior design combines 'spacious feel' and 'quality feel' with a focus on actual cabin size used by you.

The entire interior has an openness that belies its compact exterior and has enough room for you to drive your car in comfort. Ease of entry and exit is another key advantage of the Brio while its unique design ensures that you get maximum outward visibility in all directions at all times.

Ample Boot Space

Spacious Glove Box

Front Door Pockets

Drink Holders

'Love keeps me going.'

Honda's advanced 1.2L i-VTEC (Intelligent Variable Valve Timing and Electronic Lift Control) engine delivers high power output with impressive fuel economy. It is a four cylinder engine featuring Programmed Fuel Injection, delivering impressive performance with an awesome 88 ps at 6000 rpm so that you never feel let down. By regulating valve opening to match engine speed, the agile i-VTEC engine adjusts its characteristics to deliver both superior power and low fuel consumption. Couple these with some of the lowest emission levels in the industry, and the only feeling you'll experience when you take your Brio on a date, is love.

1.2L i-VTEC Engine for unmatched power and fuel efficiency

Premium and spacious dual-tone beige interiors

Premium dashboard with chrome & silver accents

'My love's more than skin deep.'

Let the Brio's love embrace you the moment you step into the warmth of its exquisite interiors.

- Dual-tone beige interiors
- Stylish and ergonomically designed seating
- Sporty steering wheel with silver finish
- Elegant chrome air vents

Unique and sporty Triple Analog 3D Meters with enhanced visibility

ECO Lamp to encourage fuel efficient driving practices

Advanced Integrated USB Audio System

USB & AUX-in features

Steering-mounted Audio Controls for convenience

Tilt Steering for greater driving comfort

Electrically adjustable ORVMs for greater ease

'Because our love story is forever.'

Love is always about protecting your loved ones. And the Brio asserts its love for you with a range of enhanced safety features.

- **G-CON:** Honda's original G-CON (G-Force Control Technology) reduces the impact in the event of a crash and crumple zones ensure pedestrian safety
- **ABS** (Anti-Lock Braking System) and **EBD** (Electronic Brake Distribution) offer optimal braking force on all wheels for enhanced vehicle control
- **Driver's side Intelligent SRS (i-SRS) Airbag:** Spiral seam structure and gas release control valve, which control airbag deployment and pressure, make airbag deploy faster and remain inflated for longer, therefore reducing the impact on the driver
- **Pretensioner Seat Belts with load limiter:** In the event of a collision, the seat belts tighten to keep the body firmly in place

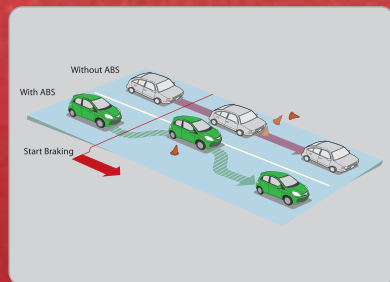

G-CON body disperses and absorbs collision impact

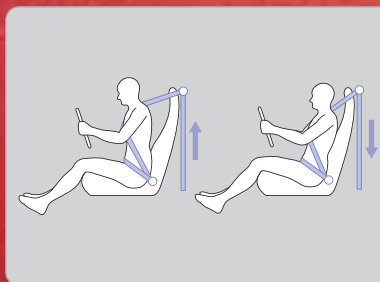

The Brio goes through the most stringent tests at the Honda Crash Test Facility

Dual SRS Airbags to ensure safety

ABS with EBD to help you steer during hard braking

Pretensioner seat belts with load limiter

'See me the way you want to.'

Give your Brio a little bit of your personality with the exciting range of genuine Honda accessories. So the next time you hit the road, see everyone else go green with envy.

'Know me better.'

At Honda, our goal has always been to develop and produce automobiles that combine maximum efficiency and optimal results. As we race into an exciting new decade, we see this as the perfect time to take a fresh look at your ambitions and expectations and create a car that concentrates Honda's technologies and experience in a highly compact body, one that's just right for you.

We proudly present the **Honda Brio (pronounced Br-ee-o)**. The very name connotes cheerfulness, liveliness and staying active, much like you. We believe that the Brio truly looks to the future. And we hope that it will bring as much happiness to you as it has to us while we created it.

'Colours of my love.'

'Love is all around.'
