DD-31127

Fiat Palio 1.6 Sport Not drivers. Only lovers.

FIAT

Double Crank Prevention System
This car engine is designed to protect itself. With Double Crank Prevention System, you will have to switch off the ignition before you restart the engine. Thus helping to safeguard vital engine components.

Reverse Gear Lock
We make sure that you don't make a mistake, even by mistake. Fiat's unique Reverse Gear Lock prevents you from engaging the reverse gear, while the car is travelling forward, thus protecting the engine.

Comfortable Interiors
Red and black checkered upholstery makes sure that style is not just restricted to the outside of this car. Luxury is sinking into a deep, well-upholstered seat with adequate under-thigh support.

TECHNICAL SPECIFICATIONS	PALIO 1.6 Sport
ENGINE	
No. of Cylinders, arrangement	4, in line, front transversal
Capacity (cubic cm)	1596
Number of Valves	16, four per cylinder
