THE GLOBAL FORD FIESTA

The All New Ford Fiesta arrives in India with a longstanding reputation, built on an amazing track record of 72 Auto award wins internationally and over 1.35 million sales worldwide. The Ford Fiesta is now available both in Manual and Automatic transmissions. With technological advancements such as 6-speed Dual Clutch Powershift, First-in-class ESP, First-in-class Voice Control, All New Powertrain, Unique Interior Configuration & Optimized Water Wading Performance, the All New Ford Fiesta is the ideal drive for the Indian roads.

The features in The All New Ford Fiesta include:

- Game changing **6-speed, Dual Clutch Powershift Automatic**
- **India's most fuel efficient Automatic Sedan*** (16.97 kmpl) with class leading fuel economy in Manual Transmission as well (16.86 km/litre petrol and 23.5 km/litre diesel)
- **Zero Maintenance Transmission[#]**
- **First-in-class Electronic Stability Program (ESP)**
- **First-in-class Hill Launch Assist and Grade Assist** that help you go up and down with much more ease
- **First-in-class Voice Control Technology** offers hands-free control over your mobile phone, radio, CD, USB, iPod® and Climate Control
- **First-in-class Electronic Cruise Control** lets you to set and maintain speed while driving on highways
- **Electric Power Assisted Steering (EPAS)** with Pull Drift Compensation Technology (PDC) adapts to changing road conditions
- **Best-in-class Noise, Vibration and Harshness (NVH) provisions** creates a cabin that cuts out unnecessary sound

*Amongst petrol automatic sedans above 4 m length. Fuel economy 16.97 kmpl as per ARAI.

[#]Powershift transmission unit does not require maintenance for 10 years/2,40,000 kms as per validation tests.

SMOOTHEST TRANSITIONS

With the First-in-class Dual Clutch Powershift Technology of the All New Ford Fiesta, get a manual-like drive experience. The Dual Clutch System keeps alternate gears activated and ready to be released making your drive the smoothest in Automatic transmission. And thanks to the absence of "power sapping" hydraulics you now get outstanding fuel economy.

Switch your car to the "L" mode and see how intelligently the car automatically shifts to the lower gear to deliver more 'torque' for your drive.

Available in Automatic Transmission

The New Ford Fiesta's Powershift transmission unit uses a unique design, and is sealed with low-friction gear lubricant making it practically maintenance-free (not even a gear oil change). This transmission requires absolutely no maintenance, allowing you to drive approx. 2,40,000 kms / 10 years before you plan a maintenance visit to the workshop. How's that for low maintenance?

Available in Automatic Transmission

EVERLASTING DRIVE

ECONOMICAL KILOMETERS

India's Most Fuel Efficient Automatic Sedan*, the All New Ford Fiesta 6-speed Powershift combines the convenience of an Automatic with the fuel efficiency of Manual.

The responsive 1.5l TIVCT petrol and the ultra refined 1.5l TDCi diesel engines deliver class leading fuel efficiency and a sophisticated drive.

UNWAVERING STABILITY

ULTRA HI-STRENGTH STEEL BODY

The All New Ford Fiesta's stylish body is reinforced with **Boron Steel** that is four times stronger and yet incredibly lighter. Safety is further reinforced by driver and passenger airbags. The standard **Anti-lock Braking System with Electronic Brakeforce Distribution (ABS with EBD)** gives you complete control, even upon sudden braking or unexpected swerving.

Also, the **Electronic Stability Program (ESP)** in the Fiesta Automatic helps monitor the vehicle's "motion data". This further helps stabilize the car by preventing undesirable breakaway and skidding. All this together ensures you feel safer every moment of your drive.

ESP

Go up and down with much more control in the All New Ford Fiesta 6-speed Powershift Automatic.

The Hill Launch Assist and Grade Assist functions integrate the brake control and transmission to provide improved drivability. With the Hill Launch Assist, as you go uphill the system holds the vehicle steady for 2.5 seconds permitting you to move your foot from the brake to the accelerator. Similarly, with the Ford Grade Assist feature, the car is held steady as you go downhill allowing you to move your foot between the accelerator and brake.

Available in Automatic Transmission

EASY SLOPES

QUIET SOPHISTICATION

Expressive design meets premium finish in a mobile phone inspired center console design. The multi-function display gives you the information you want, where you need it.

With best-in-class in-cabin noise, the hustle and bustle of the outside world remains where it should. Outside.

To reduce the chances of damage from passers-by, the outside mirrors automatically fold inward once you've parked your car, keeping your car looking good, always!

Available in both Manual and Automatic Transmission

Live a connected life with the All New Ford Fiesta. The **Bluetooth®** and first-in-class **Voice Control** features ensure friends are always within reach and business decisions just a touch away.

In case you want to change the song, just say it. Play your favourite iPod® playlists, CD tracks, change radio stations or control air conditioning. Speak your mind and it's done.

Available in both Manual and Automatic Transmission

ADDICTIVE DRIVING

Born with Ford DNA, the Winner of the Bloomberg UTV Autocar Awards 2012, Best Driver's Car Award, the New Ford Fiesta, has enhanced curves, distinctive grills and a sporty rear that will get you all the attention. With a 1.5l TIVCT petrol and the ultra refined 1.5l TDCi diesel engine, the New Ford Fiesta delivers class leading fuel efficiency and combines it with a sophisticated drive. Also, the **first-in-class Electric Power Assisted Steering (EPAS) with Pull Drift Compensation Technology** is designed to reduce effort while driving by measuring steering input and adapting to changing road conditions.
