Loves India

"SPACE, NO PROBLEM."

Indians don't like to do things alone. They find joy in the company of friends, neighbours and family. The Logan too loves India and understands its needs. That's why it has been designed to carry more people and their luggage, more comfortably than any other car in its class. Hence, space no problem.

"SAFETY, NO PROBLEM."

The Logan's unique honey-comb structure makes for a cocoon that absorbs the energy of an impact. A host of safety features make the Logan's cabin space one of the safest places on Indian roads.

- ABS with EBD
- Airbag
- Front anti-roll bar
- Rear head restraint
- Cross member attached behind the rear seat to prevent luggage intrusions into the cabin
- Side impact beams

- **DRIVER INFORMATION SYSTEM**
Displays your average speed, remaining fuel and your average fuel consumption all at the click of a button.
- Vario-metric AC for uniform cooling
- 5 years anti corrosion warranty
- Antitheft electronic encoded safety system, activated by transponder (Immobilizer)
- Electronic power assisted steering#

"TECHNOLOGY, NO PROBLEM."

The Logan is equipped with state-of-the-art petrol and diesel engines with a perfectly matched gearbox to give an optimum balance between power, drivability and mileage. Additionally, the Logan also comes equipped with the Driver Information System that gives you vital information on the go.

"MILEAGE, NO PROBLEM."

Even the shortest of drives in India can turn into one long journey. The wife's shopping is just one such instance. Driving relatives and friends across the city, taking a diversion to avoid traffic or navigating through unmapped roads are some others. The Logan's certified diesel mileage of 21.03* kmpl ensures that mileage is never a problem.
