## A CAR THAT TRULY EARNS ITS NAME.

Imagine a car that blurs the line between beauty and functionality. Where style and spaciousness coexist in perfect harmony. Where there's room for everything except compromise. We imagined such a car. And we call it the New ŠKODA Superb.

Sculpted by a new, more emotional, design language, the Superb is an instant conversation starter. As well as being incredibly spacious it's the most comfortable way to stretch not just your legs but your ambitions too – perfect for family and business alike. And being a ŠKODA, this car showcases our finest Simply Clever thinking, like the virtual pedal for hands-free access to the luggage compartment.

This car represents 120 years of forward-thinking, a commitment to making cars that are as much a joy to drive now as they were back when we started. Because instead of looking back on our eventful history, we use it as an inspiration to look ahead.

That's Simply Clever. That's ŠKODA.

Superb

# DESIGN

## SHAPING TOMORROW, TODAY.

The Superb is the crowning glory of the entire range. Every successive iteration, a source of pride. And a symbol of the future. The design language for this particular one came from comprehensive research of ŠKODA's design history. Research that led to a style characterized by sharp lines, both strong and elegant at the same time. But as is the tradition at ŠKODA, utility was not forgotten. The interior is the optimal combination of comfort and space with an extra sprinkling of Simply Clever features. It is indeed ŠKODA design, designed to enthrall.

# EXTERIOR DESIGN

The Superb's design invites you not just to look, but to look closer. The signature angular contours and sharp dynamic lines reflect how the beauty of the whole is revealed in its exciting details. The result is a rousing display of precision and purpose.

The interaction between convex and concave forms on the rear of the car creates a striking interplay of surface light. Speaking of light, the LED technology combined with crystalline elements in the distinctive C-shaped rear lights further adds to the feeling of poised elegance.

The perfectly balanced proportions, the large glass areas and the headlamps sweeping around the sides lend the car's profile an extraordinary visual presence and emotional appeal.

The imposing lines of the bonnet are complemented by the profiled contours of the headlamps and the equally crisp front fog lamps - their design paying homage to Czech glass-making.

The Superb will open up new vistas with the electronically-adjustable panoramic sunroof, which will expand the feeling of space.

The sleek sharp contours of the external side-view mirrors with integrated indicators whip up a sporty look, while the large mirror ensures total functionality.

The style quotient of the car is underlined by the decorative door-sill strips with the Superb inscription. A clear nod to the car's overall blend of form and function.

# LIGHT DESIGN

Lights can inspire as much as they can illuminate. Borrowing from Czech crystal glass-making heritage, the lights of the new Superb are the most magnificent eyes ever to have lit up the road.

The intricately-detailed headlights draw inspiration from and celebrate the renowned Bohemian glass-cutting skills.

The Bi-Xenon headlamps include decorative cut crystal high beam lamps. Illuminated 'eyelashes' also feature in the high-spec headlamps.

Crystalline elements also appear in the 'inactive' area of the integrated taillights. And the reverse and flasher lamps, plus the LED part of the fog lights, are hidden behind 'gems', making the Superb's lighting signature even more distinctive.

# INTERIOR DESIGN

If you thought the exteriors were impressive, wait until you step inside. Leather seats of the most exquisite quality await you. And more legroom than your legs could ever wish for. In fact, just getting comfortable in the new Superb is a journey in itself.

# AMBIENT LIGHTING

Make your space more cosy and comfortable with soft, harmonious ambient lights that run along the inside of the car, setting the perfect mood for any journey.

Warm white ambient lighting

Green ambient lighting

Blue ambient lighting

# INTERIOR STORAGE

There's a place for everything, even in your car. The new Superb features a multitude of compartments, pockets and holders, keeping your elegant interior tidy, and your belongings safe from loss, breakage or spillage.

The rear seat centre armrest is integrated with twin cup holders and storage

The spacious Jumbo Box storage compartment is housed in the front armrest. You can store your electronic items safely inside or cool it to keep your snacks fresh. A dual drinks holder can also be found on the centre console. The "Easy Open" bottle holder has an anti-slip design which allows the driver to open the bottle with just one hand.

The storage compartment in the dashboard on the front passenger side can also be cooled, when the air conditioning is on.

This angled foot rest at the rear attached to the textile floor mats makes long trips even more comfortable.

# LUGGAGE COMPARTMENT

With a capacity of 625 litres, stretched to 1,760 litres with the rear seat backrests folded down, the new Superb is at the top of its class in space. But maximising space is nothing without maximising practicality. That's why we added Simply Clever solutions that make handling luggage even easier.

The electrically-controlled 5<sup>th</sup> door opens and closes automatically without you having to touch it – especially handy in unfavourable weather. You may also adjust the upper door position to suit your needs.

How do you open the luggage compartment when your hands aren't free? Just swipe your foot underneath and it will open, magically. The virtual pedal enables contact-free access and is available exclusively with the electrically-controlled 5<sup>th</sup> door and KESSY (Keyless Entry, Start and exit System).

Foldable hooks, located on the sides of the luggage compartment, make shopping items easier to transport and more secure.

# TECHNO LOGY

# INFOTAINMENT

You can communicate, work or entertain yourself with ease on board the new Superb.

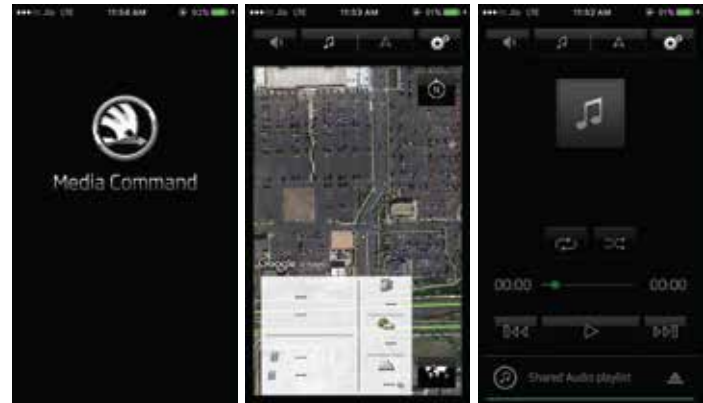

The radio with a colour touchscreen display features AM and FM tuners, USB/Aux-in connection, Apple connectivity, SD card slot and Bluetooth. It comes with SmartLink system as standard. Perfect sound quality is guaranteed by four front and four rear speakers.

With the SmartLink system (ŠKODA Connectivity bundle supporting MirrorLink®, Apple CarPlay and Android Auto) the radio enables the driver to safely use the phone while driving. All installed applications that are certified as safe for vehicles are compatible with MirrorLink®, Apple CarPlay or Android Auto.\*

The Canton Sound System offered on the Laurin & Klement version has twelve speakers, including a central speaker and a subwoofer in the luggage compartment.

## MEDIA COMMAND APP WITH BOSSCONNECT

The new ŠKODA Media Command App with BossConnect allows you to control the infotainment system on your phone. This feature is integrated into the Amundsen infotainment system and the new ŠKODA App, even allowing people in the back to operate the functions using their smart device.

\*Visit our website for usage terms and compatibility information for SmartLink.

# ENGINES AND TRANSMISSION

If the design of the Superb teased you from the outside, a closer look under the bonnet will set your pulse racing. The new generation of engines offers outstanding comfort without compromising on performance or the environment. With an assortment of engines to choose from, there's one just right for you.

Depending on the engine version, the car can be equipped with either an automatic 6-speed or 7-speed DSG (Direct Shift Gearbox).

The new generation 1.8 TSI petrol engine packs an impressive 132kW punch, and is significantly lighter than its predecessor. The 2.0 TDI diesel engine yields 130kW of pure performance, with no compromise on fuel consumption.

# COMFORT

Loaded with thoughtful features, the new Superb will indulge you in absolute comfort, whether it's staying relaxed during the longest journey or being entertained on-the-go.

The multifunctional steering wheel wrapped in leather and adorned with chrome elements puts sheer driving pleasure at your fingertips. The 3-spoke steering wheel has controls for radio, phone and gear shifts.

With 3-zone Climatronic air-conditioning and new clean Air function, you can set different temperatures for the driver, front and rear passengers. It's also fitted with a humidity sensor, which reduces windscreen misting.

The KESSY (Keyless Entry, Start and Exit System) enables keyless starting and switching off of the engine through a Start/Stop button on the steering column.

The electronically-adjustable driver seat with built-in memory can store three different seat positions and external side-view mirrors.

The Boarding Spots, designed to illuminate the entry area, are located on the external side-view mirrors and on the underside of the front and rear doors. It helps you, for example, to avoid puddles in the dark.

External side-view mirrors retract automatically once you lock the car, which you'll especially appreciate when parking on packed city streets. The mirrors also feature automatic dimming and memory functions.

# SAFETY

# ASSISTANT SYSTEMS

The new Superb puts a host of assistant systems at your service, offering unmatched convenience and safety in unforeseen situations.

The headlamps include the AFS (Adaptive Frontlight System) function for optimum illumination of the road and its surroundings. As the geometry of the low beam is variable, the headlamps are able to respond to speed changes, as well as to various light and weather conditions (fog, rain). The available modes include City, Inter-city, Motorway and, as a special mode, Rain. The AFS system includes headlamp swivelling and cornering functions (both low and high beams) and dynamic headlamp inclination control.

The Multi-Collision Brake system makes use of the Electronic Stability Control (ESC). If the driver's or front passenger's airbag is activated, the system starts braking to prevent further uncontrolled movement of the vehicle and thus reduce the likelihood of further collisions.

The Superb is fitted, as standard, with an electro-mechanical parking brake, which has replaced the original mechanical handbrake.

Enjoy easier parking with the rear-view camera located on the handle of the 5<sup>th</sup> door. It monitors the space behind the car and indicates the driving lanes, based on the vehicle width.

## HANDS-FREE PARKING

The SUPERB's state-of-the-art hands free parking doesn't just give you greater comfort and orientation while parking. It gives you confidence to park like a pro every time. Hands free parking minimises the hassle of parking in tight spots by automatically selecting an appropriate parking place in a row of parallel or perpendicularly parked vehicles. When parallel parking, it only needs a space 60 cm longer than the car itself. In today's crowded cities and space-starved streets, hands-free parking is a blessing indeed.

# AIRBAGS

While we don't recommend leaving anything to chance, you may certainly rely on the new Superb. In potentially dangerous situations, where the driver cannot actively influence the outcome, the car's passive safety elements take over. Like the airbags. Your car is equipped with eight airbags for all round protection.

While the driver airbag is enclosed in the steering wheel, the passenger airbag is located in the dashboard. The front and rear side airbags protect the pelvis and chest of the driver and other passengers in the event of a side collision. Upon activation, head airbags create a wall, which protects the front and rear occupants against head injury.

# LAURIN & KLEMENT

# LAURIN & KLEMENT

The Laurin & Klement equipment version represents a perfect combination of high-class and high-tech. It is the epitome of beauty, originality, safety and maximum comfort.

The exclusive interior comes in an elegant Stone Beige perforated leather with Piano Black décor. The front seats are electrically adjustable and the driver's seat is also equipped with memory function.

The 3-spoke multifunctional leather steering wheel with chrome elements allows you to control the radio and telephone. The gear knob carries the Laurin & Klement logo. The standard equipment also includes the radio with SmartLink, Canton Sound System, ambient interior lighting and plenty more such features.

The original Laurin & Klement badge on both front mudguards is a reminder of the founders of our company, over a century ago, in Mladá Boleslav.

The Laurin & Klement logo embossed in the leather seat backrests is another stamp of exclusivity.

With the Boss Button, the front passenger seat position can be electrically controlled from the rear seat for your added convenience and comfort.

An ornate Laurin & Klement motif further enhances the lavish look of the Piano Black Décor on the dashboard.

You can find door sill strips in the front as well as rear. In the front they feature the original Laurin & Klement inscription
