AMAZE

THE BIG MOVE

VS

SONET

SONET

Lower grades which are priced between ₹ 7 to ₹ 8.65 L miss out on competent features, whereas most promoted features are present in impractically overpriced GTX+ variant (₹ 12.99 L) approx. ₹ 15 L on-road

Back seat space is terribly compromised, barely fits 2 adults (Even lower than Venue; same platform)

Extremely confusing & complicated variant spread

No automatic transmission option for lower grades (only HTX onwards)

Company/dealership maturity to handle product issues is missing

COMPACT SEDAN ADVANTAGE

Bumps and potholes are **filtered out well** even on moderately bad roads

Point out the softer suspension setup during test drive for a more practical experience

TEST DRIVE

AUTOCAR

"The Amaze is softly sprung, and the travel range of the suspension is quite long results in good bump absorption over broken roads."

Large boot space & Low loading height offers the best of convenience and utility

Firm suspension setup, **even medium-sized potholes** make their presence felt inside

AUTOCAR

"Sharper bumps lead to more prominent road shocks inside the cabin, and the Sonet doesn't feel as plush as its rivals."

Comparatively smaller boot space & the higher Loading lip will **require extra efforts** while loading heavy items

RELIABLE PERFORMANCE

1.2L Petrol i-VTEC

More powerful petrol engine
Power- 90 ps

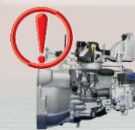

1.2L Petrol SMARTSTREAM

Under-powered petrol engine
Power- 83 ps
No Automatic option with 1.2 L Petrol engine

Class Leading **Petrol CVT with Paddle Shift** for an engaging driving experience

iMT Transmission is offered with **3 Cylinder Turbo Petrol** (starting at approx. **₹ 10.90 L on road**)

Segment Best

Diesel CVT Combo
✓ **Smother** driving experience
✓ Starts from **only ₹ 9.15 L (S CVT)**

Conventional

Diesel AT Combo
✓ **Cannot match** the smooth driving experience of CVT
✓ Start at **₹ 11.29 L (HTX AT)**

AUTOCAR

"The CVT paired with the diesel (in Amaze) is outstanding; you get a respectable performance and the convenience of the smoothest-shifting automatic in that segment."

PRACTICAL CABIN EXPERIENCE

Rear seatback is **more reclined** offering a **relaxed seating position**

Rear seatback is **too upright** thus resulting in an **awkward seating position**

Excellent visibility due to large windshield and subtle dashboard layout

Frontal visibility is compromised for short drivers due to high mounted dashboard layout

820 mm

680 mm

AUTOCAR
INDIA

"The recline angle, the cushioning and the support are just right. **Legroom at the rear is huge** and if you're chauffeur-driven, this is **one of the better backseats around.**"

AUTOCAR
INDIA

"**Knee and legroom are quite poor** as far as segment standards go. Also, the **rear seat isn't as spacious or as comfortable for three adults**"

AMAZE

THE BIG MOVE

*Amaze truly delivers when it comes to
premiumness at an adorable price*

- ✓ **Reliable Powertrain**
- ✓ **Practical & Comfortable Cabin**
- ✓ **Feature Loaded Variants**

All variants of Sonet are **highly overpriced for the features it offers**

While its lower variants are-

- ✓ **Low in features**
- ✓ **Does not come with automatic transmission
(available only HTX onwards)**

SONET
