RHINO COLLECTION

Story of the Jimny rhino logomark

With hard, thick hide and long pointed horns, the rhinoceros of the African savanna has a form reminiscent of a dinosaur. Normally the rhinoceros lives a quiet and peaceful life, but when it is necessary to protect territory or companions, the rhinoceros has the courage to charge almost any opponent at great speed, without hesitation.

In 1981, Suzuki created the rhino logomark, choosing a rhinoceros motif because it is reminiscent of rugged and robust real 4x4 vehicles.

The stylized figure of a rhinoceros, with skin like armor and its weight slung low, charging forward, became famous overnight among Jimny fans around the world. It is now the firmly established and popular symbol of the Jimny brand.
