Advanced Driver Assistance System (ADAS) is not a substitute for human eye and driver vigilance. It is a driver assist system that enhances driving experience and safety. The driver shall remain responsible for safe, vigilant and attentive driving, Images & depictions are for illustration & representation purposes only. Features and specifications as shown in the brochure are not standard for all variants. MG Motor India urges drivers to follow traffic rules which are meant to keep them safe on roads. The car is presented with accessories and it is to be purchased separately and is not inclusive in the car price.

## OUR DNA OF ADVENTURE

The nomenclature of 'GLOSTER' was a tribute to the first British jet engined aircraft prototype. The famed ADVANCED GLOSTER is now cloaked in the boldest, deepest hue: BLACK. Black is a statement of intent and an undeniable presence. The Advanced GLOSTER BLACKSTORM fuses formidable power with sporty aesthetics which complement your enigma. Every element is darkened, coupled with red accents that stand out along the bodywork. It's an automotive marvel built with latest technology to deliver an inimitable driving experience.

## EXCEPTIONAL CHARACTER. INCREDIBLE PRESENCE.

## ASSISTED AND INTUITIVE DRIVING

ADAS is a group of safety and convenience functions intended to improve comfort for drivers, road safety and preventing or reducing the severity of potential accidents. ADAS can do all this by alerting the driver, implementing possible safeguards in the vehicle & automating driving controls (based on the driving automation level of the vehicle).
