

MICRA

SHIFT_ the way you move

Nissan Motor Co. Ltd. is a global automobile manufacturer with its headquarters in Tokyo, Japan. Nissan entered the Indian automobile market with the launch of its SUV 'X-TRAIL' in 2004. The X-TRAIL, a compact SUV has a proven track record, with stunning exteriors and roomy interiors. X-TRAIL was titled as the "SUV of the Year" by the BBC Top Gear Awards 2009. After the considerable success of X-TRAIL, Nissan launched the luxury sedan Teana in 2007 which won an award for the "Executive Car of the Year" by NDTV Profit Car & Bike Awards 2008. Following the launches of X-TRAIL and Teana, Nissan launched its iconic sports car 370Z. All these cars managed to redefine the standards of automotive excellence in their respective segments. To cater to the highly competitive small car segment, Nissan offers the all new Nissan Micra based on the revolutionary "V" Platform. The Nissan Micra is a true global car as it will be manufactured in four production plants and exported globally.

INTELLIGENT KEY SYSTEM/PUSH BUTTON IGNITION/REQUEST SWITCH

With the intelligent key fob in your pocket, you can start the engine with the push of a button and lock or unlock the doors just by touching the request switch on the door handle. And for an added measure of security, the engine immobilizer prevents anyone without the key from starting the car.

AUTO CLIMATE CONTROL

The powerful and efficient air conditioning system features an auto mode. Just engage it and the system will keep the interior at the desired temperature.

TURNS EASILY IN SMALL SPACES

With a turning radius of just 4.65m, the Micra gets in and out of tight places as quick as you like.

SRS AIRBAGS

All Micra models are equipped with a driver's side SRS (Supplemental Restraint System) airbag that deploys automatically in the event of a severe frontal impact to minimize injury risk.

EXCELLENT FUEL MILEAGE

(*Test Results of Rule 115 of CMVR, 1989)

SPECIFICATIONS

Engine		
Engine Code		HR12
Type		DOHC 12-valve, 3-cyl. in-line Petrol
Displacement	cc	1198

SAFETY SHIELD

Nissan's concept of "the vehicle that helps protect people."

In the area of safety technology, Nissan pursues innovation as part of its "Safety Shield" concept, an advanced, proactive approach to safety issues based on the idea that cars should help protect people. This approach provides various measures to help the driver and passengers better avoid dangers in ways that are optimized to each of a wide range of circumstances that the vehicle may be in, from "risk has not yet appeared" to "post-crash."

NISSAN PRODUCT QUALITY POLICY

To provide each of our customers with a consistently high level of quality, we apply the same high quality standards worldwide—ensuring that all Nissan owners enjoy peace of mind for the lives of their vehicles.

ENVIRONMENT

Seeking a symbiosis of people, vehicles and nature

Nissan's environmental philosophy can be described as, "a symbiosis of people, vehicles and nature." It is our ideal for a sustainable mobile society now and our goal for the future. We established the Nissan Green Program with specific objectives to realize the goal, and we are diligently making concerted efforts to reduce environmental impact at every stage of the vehicle life cycle and our corporate activities.
