YOUR JOURNEY, YOUR WAY

Life is a journey, with many twists and turns. Some you're prepared for and some which catch you by surprise. But you take them all in your stride, and find the joy in each and every one. It's a journey well worth taking. And worth doing your way.

Hyundai Motors New Zealand's support for the Child Cancer Foundation continues its strong commitment to community groups in New Zealand. The Child Cancer Foundation is a non-profit organisation that supports children and young people with cancer, their families, and the health professionals who care for them.

i45

"The Hyundai i45 vaults itself to the top of the class"

- Edmunds.com

In a continuation of the Hyundai legacy of unending progress, innovation and excellence, the i45 introduces further advancements in design, comfort, performance, safety and convenience. The i45 embraces the latest and greatest in technological breakthroughs, topping off the industry standard in not only aesthetic appeal, value and confidence, but also machinery build and spatial innovation.

CHARISMATIC DESIGN

Like any timeless work of art, the i45's design concept is inspired by nature. Embodying a progressive appearance with a sophisticated line that extends from the roofline to the trunk lid, each aerodynamic contour and line purposefully blends into a sporty and unconventional stance for the New Zealand roads.

SEE IT. FEEL IT.

Take a seat in the i45 and you feel all the joy of driving coming through.

The x-shaped center fascia is what registers first. Sweeping and ergonomic, it tells you that simplicity is all part of the package, with well-positioned controls and a logical layout enhanced by no small measure of style. The supervision cluster gives you the information you need in one glance. Highly visible, its readability is enhanced by a vacuum fluorescent display which lights up in cool, purposeful blue. The floor console features a cup holder compartment with a sliding cover. A guide adjusts to the size of any cup to hold it safely, while the cover makes for a neat appearance when not in use.

ENGINE START/STOP BUTTON

From the Engine Start/Stop button option*, to the Seat Warmers*, to Rain sensors* option for convenience, the i45 ensures the most comfortable ride possible.

PADDLE SHIFTERS

Paddle shifters located just behind the steering wheel let you change gear without taking your hands off the wheel. Through electronic transmission, you shift up and down with fingertip control.

*Elite models only

ENGINEERING PASSION CONCEIVED FOR THE FUTURE

The i45 embodies Hyundai New Zealand's commitment to protecting our kiwi environment. At 180grams* per kilogram of carbon dioxide, the i45's CO2 emission levels match those of a family hatchback. Not to mention it's outstanding and class-leading fuel efficiency, with figures as low as 7.6 litres per 100km*

*Theta II 2.0l MPI 6-speed automatic

The new i45 is technology-driven as much as it is emotionally driven, delivering powerful performance, class-leading fuel efficiency and an outstanding suspension ideally fitted for the New Zealand driving conditions. Feel the power of technology with two Theta II petrol engines, both mated with a new six-speed automatic transmission for a truly heightened performance.

GATE-TYPE 6-SPEED AUTOMATIC

The step-gate shift pattern of the 6-speed automatic transmission offers class-leading shifting capability and fuel efficiency, while the simple motion line design and grip touch minimises shift errors.

THETA II MPI AND GDI ENGINE

Theta 2.0 MPI or 2.4 GDI petrol engines provide measured, powerful performance. Plus low emissions, reduced fuel consumption thanks to lowered weight, and minimised vibration, particularly when idling and accelerating.

ESP – ELECTRONIC STABILITY PROGRAM

The i45's ESP system, and advanced standard safety feature, helps you remain in control of your vehicle during critical situations to avoid serious accidents. The ESP system achieves this by comparing the driver's intention with the momentary vehicle behavior and controls the Antilock Braking (ABS) and Traction Control Systems (TCS) accordingly, to initiate the appropriate corrective action by selectively braking individual wheels and controlling engine power.

ADVANCED TECHNOLOGY PROMOTES

Maximum safety and accident prevention in the i45. Whatever may be round the corner, you can be sure you're ready for it.

Securing safety from all corners of the i45 with an advanced 6-airbag system, the i45's advanced technology promotes maximum safety and accident prevention. With additional standard features such as Electronic Stability Programme, Brake Assist system and Hill-Start Assist Control to name a few, the i45 will give you the stability and protection on our New Zealand roads.

EBD - ABS AND SIX AIRBAGS

The i45 features Electronic Brake-Force Distribution (EBD), which applies the optimum pressure to individual brakes in all braking situations. Passenger safety is further enhanced with six airbags: dual front, dual side and dual front-to-rear roof curtain airbags.

i45 SAFETY PACK

To give you a little more peace of mind, every i45 is equipped with its own safety pack – a fire extinguisher, reflective safety vest and first aid kit.

THE SKY'S THE LIMIT

The interior styling of the i45 is fresh, modern and superbly appointed.

The interior of the i45 is dynamic, echoing the stylish tone set by the outer shell with a generous flair of comfort and high levels of exclusivity. Optimally practical, the use of the finest materials and features create an ambience of modernity and elegance for the everyday kiwi business person.

i45 2.4 Elite A6 Limited model shown

ALLOY WHEELS

The new i45 offers a choice of wheels ranging from 16" inches on the i45 2.0l model, to 18" inches on the i45 2.4l Elite models. The sleek design translates into a cleaner, larger, and sportier appearance.

The finer features

SIDE REPEATER ON OUTSIDE MIRROR

LED type side repeater lamp is located on side mirrors to improve convenience and safety.

ELECTRIC CHROMIC REAR VIEW MIRROR

This rear-view mirror automatically senses and reduces light intrusion from following vehicles. This dramatically reduces eye fatigue in tough and dark conditions.

MP3, CDP AUDIO, AUX IPOD AND USB CONNECTIONS

Integrated system plays CDs and other multimedia applications like MP3 files. Also play your favourite music files from a PC by using mobile devices like the iPod® or USB memory storage devices. All variants come standard with an auxiliary (AUX) connector cable

BOOT CAPACITY

With an enormous boot capacity of 523 litres, the i45 has no problem handling suitcases, with more luggage space than nearly any other in its class. And with the rear seat 60/40 split folding function option, you are guaranteed even more space to move the items you need.

VACUUM FLUORESCENT DISPLAY (VFD) CLUSTER

This sporty 2-cylinder type design offers drivers various information through a high-tech VFD window.

ELECTRIC SLIDING & RECLINING SEATS

The driver is offered comfort with electric sliding and reclining seats. Enjoy 10-way sliding and reclining functions. (Elite models only)

INTEGRATED MEMORY SYSTEM (IMS)

Convenient automated control of seat positioning, including built-in memory function for two drivers. (Elite models only)

PANORAMIC SUNROOF

A three-piece type model typically seen on luxury vehicles also includes motor-operated roll blind application. (Elite Limited model only)

*Fuel consumption figures are based on combined ADR 81/01 tests and factory information. These figures are provided to assist you in comparing the fuel consumption of the i45 range with other vehicles. The actual fuel consumption will depend, however, on many factors, including your driving habits, the prevailing conditions and your vehicle's equipment, condition and use.

Accessories

CUSTOM TOWBAR

For those who wish to tow a trailer, a robust compact towbar with detachable tongue can be fitted to your i45 if required.

CUSTOM MAT SET

Protects carpets from wear-and-tear and provides a smart finish to the interior of the i45.

WHISPBAR ROOF RACK ATTACHMENT

Accessories that can be attached to the Whispbar roof rack include: bike roof holder, kayak roof holder, snowboard roof holder, ski roof holder and small/medium/large roof box.

i45 STYLE VISORS

A transparent set of four style visors can be individually fitted to each door of the i45, and enables the window to remain open in all weather conditions.

BLUETOOTH KIT

For state-of-the-art technology that is high in quality and extremely safe when driving, there is a range of Bluetooth phone kits available.

HEADLIGHT COVER AND BONNET PROTECTOR

Smart, modern, transparent covers are available for extra protection of headlights, turn indicators, and to keep the bonnet stone-chip free.

WHAT ARE WE DRIVEN BY? PERFECTION AND BUILD QUALITY

Few companies are as fanatical about quality as Hyundai in New Zealand. We are driven by perfection. It begins with our commitment to a zero-defects policy. Every stage of our car making process is checked and assessed, and every employee's priority is build quality. If anything is less than perfect, we go to great lengths to redesign it to make sure we get it right.

Our laser technology, no hand-spraying technique, quality control testing and rewarding workers for improved quality are just some of the ways we aim to achieve manufacturing excellence. We have one of the world's most advanced petrol engines. They are powerful, energy efficient, economical and they readily meet the toughest of diesel emission standards. This commitment has made Hyundai one of the world's most respected quality brands, and one of the fastest growing. All this adds up to maximising customer satisfaction - which is perhaps best reflected in the resale value our customers enjoy. Hyundai Motors New Zealand Limited is part of the highly successful Giltrap Group of companies and along with its entire dealer network, is one hundred percent New Zealand owned and operated.

0800 HYUNDAI (498632) 24-hour roadside assistance

Buy a new Hyundai i45 and you'll not only get an exceptional vehicle, you'll also get roadside assistance. As the owner of a new i45, you'll receive our Hyundai Help Line service for three years or 100,000 kms (whichever comes first).

Maybe you've run out of fuel, punctured a tyre or just lost your way. Our professional staff can give you good advice or dispatch a technician to assist you. So whatever you need, help is only a phone call away, 24 hours a day, 365 days of the year.
