

BRONCO

BUILT WILD™

[STANDARD 4x4]

The only domestic brand of SUVs with 4x4 standard across the board. Built Wild for thrilling off-road experiences and confident enough to take you deep into the extremes of outdoor adventure. The Bronco Brand will include 3 all-new rugged models: the all-new Bronco 2-door; the first-ever Bronco 4-door; and an all-new, small but tough SUV called the Bronco Sport.

[TRUE BRONCO EXPERIENCE]

The Bronco Brand comes to life at the Off-Roaddeo. An off-roading and outdoor adventure playground – built for all skill levels – with experiences that will build confidence, inspiring Bronco owners to continue to treat themselves to getting out to the wild for years to come. This exclusive experience will invite owners to choose from one of four epic locations, immerse them in the Bronco lifestyle, provide incredible drive experiences, and create unforgettable memories while celebrating community, adventure and the great outdoors. Visit www.broncooffroadeo.com for more.

[BRONCO RIDES AGAIN]

Way back in 1966, Ford introduced its original SUV and cut a trail to the great outdoors that would be followed by generations of Americans. And now, Bronco is coming back, strapped with thrilling power and go-anywhere capability, uniquely equipped to carry true adventure seekers deep into the wild and untamed places their souls long to be.

[JOIN THE HERD]

Bronco Nation is your one-stop virtual destination for all things Bronco. A dynamic portal – built by enthusiasts for enthusiasts – into a passionate and knowledgeable community that celebrates both the rich Bronco heritage and its exciting future. Exclusive news, community forums, events, interactive maps, how-to content and archives are just a few of the features that will invite and encourage members to get the most out of their next adventure. Find out more at thebronconation.com.

Preproduction models shown throughout. May be shown with Ford Licensed Accessories, available equipment, or available aftermarket accessories. Always consult the owner's manual before off-road driving, know your terrain and trail difficulty, and use appropriate safety gear. Always determine the water depth before attempting a crossing and proceed slowly. Refer to your owner's manual for detailed information regarding driving through water.

[PROVEN TOUGHNESS]

Born from the legendary F-Series Built Ford Tough® testing principles, Bronco's world-class engineers developed the Bronco Built Wild Extreme Durability test. Through thousands of lab testing hours and real-world extreme challenges in the harshest terrains and climates, like Johnson Valley, CA – home to King of the Hammers off-road racing – the mud bogs of Georgia and cold weather of Delta Junction, AK, the team set out to ensure every Bronco delivers class-leading levels of 4x4 off-road performance capability, suspension and trail technologies.

RESERVATIONS ARE OPEN. Explore the standard equipment offerings below, then see your dealer or visit ford.com to place yours today.

[BRONCO SPORT]

Meet the latest in a legacy that can't be broken. Engineered to bring you and your crew closer to the wild, each of the 5 available models comes standard with 4x4, a Terrain Management System™ off-road capability and innovative cargo solutions. Bronco Sport was built for the pioneers of adventure – because someone has to go first.

[2-DOOR & 4-DOOR BRONCO]

Ford Bronco returns as the halo of the Built Wild family of all-new 4x4 vehicles with 2 model variants: a heritage-true 2-door, plus a first-ever 4-door. Embrace the thrill of the open-air experience with available quick-release roof and doors that pop off easily. These models also feature a rugged body-on-frame architecture; powerful EcoBoost® engines that are quick on the trails; available segment-first 35" off-road tires; available front and rear locking differentials and an available stabilizer bar disconnect.

[ADVENTUROUS POWER]

Race-cultivated EcoBoost engines and transmission technologies are engineered to give Bronco a combination of fuel efficiency, power output and gearing to take on the wild. Best-in-class* projected gasoline-powered horsepower and torque is available with the 2.7L EcoBoost V6 engine, which is projected to produce 310 hp² and 400 lb.-ft. of torque.² Or best-in-class projected standard 4-cylinder torque with the 2.3L EcoBoost turbocharged engine delivering a projected 270 hp² and 310 lb.-ft. of torque.²
