

Dear Customer,

Please find the link for the unofficial Smart Tyre Car & Bike android auto apk maintained by our automotive enthusiasts. This APK is equivalent to the Smart Tyre Car & Bike app play store version we have 4.0.0 You can download the apk by clicking on the link below.

Note:

- 1. Android 12 introduced some changes in android auto feature and due to that Smart Tyre Car & Bike (private) apk might fail to function. App might crash when you are trying to launch the Smart Tyre Car & Bike app on the android auto screen. Unfortunately, there is no solution for this and we are doing our best to have Google approve our android auto apk.*
- 2. Disable auto-update from the play store to avoid automatic updates in case of new app release.*
- 3. Since it is a private apk, it might get incompatible with some Android Auto systems.*

Instructions to upgrade the application:

1. Download the Smart Tyre Car & Bike application from the play store.
2. Download the apk from the below link.
3. Install the apk, it will override the existing app you have downloaded from the play store.
4. Connect the mobile device with the AA music system using USB cable / Wirelessly.
5. Go to the app menu on android auto screen.
6. You can see the Smart Tyre Car & Bike application.
