

MOTOR FLUSH

Stock Nos. C-19 & C-20

C-19

C-20

Cyclo's easy to use Motor Flush **CLEANS ENGINES IN 3 MINUTES!** The new formula contains powerful solvents *plus* detergents.

Today's high operating temperature engines can cause internal gum and varnish deposits. These tacky deposits can cause improper lubrication, sticking of valves and piston rings, plus heat build-up. The result can be excessive wear and poor performance. Regular use of a good quality detergent oil, regular oil changes and the added cleaning of Cyclo Motor Flush can keep your engine clean for its best performance and long life.

IT'S EASY! JUST ADD TO OIL BEFORE CHANGING.

The best time to clean a dirty engine is when the oil is being changed, which is how "easy to use" Cyclo Motor Flush powerful solvent *plus* detergent formula is designed to work. Just add to the engine oil before changing – run the engine for three minutes to mix with the oil. Cleaning action starts immediately and acts fast – drains the dirt and sludge away!

CYCLO MOTOR FLUSH will:

- Remove power robbing deposits
- Dissolve gum, sludge, and varnish from the engine and oil pan
- Help free sticking valves and rings

For dirty engines that haven't been cleaned regularly, idle for 5 minutes.

PHYSICAL PROPERTIES

Size	(C-19)	15 fl.oz. / 443 mL	Cases per pallet	C-19	81
	(C-20)	30 fl.oz. / 887 mL		C-20	72
Package		Metal Can	Cases per layer	C-19	9
Flash Point		140°F		C-20	9
Boiling Range		480°F - 640°F	Layers per pallet	C-19	9
Specific Gravity (H ₂ O=1)		.87		C-20	8
pH		N/A	Cube	C-19	0.76
Appearance		Pale yellow to amber liquid		C-20	0.73
Solubility in Water		Negligible	Case Weight	C-19	23.4 lbs
Evaporation Rate(Butyl Acetate=1)		<1		C-20	23.4 lbs
			UPC (Can)	C-19	0 89269 00019 8
				C-20	0 89269 00020 4
			UPC (Carton)	C-19	1 00 89269 00019 5
