

VIN DECODER

IDENTIFY THE YEAR AND MONTH OF
MANUFACTURE

VIN DECODER

**IDENTIFY THE YEAR AND MONTH OF
MANUFACTURE**

2010 ONWARDS

PREFACE

The year of manufacture recording in the Registration Certificate has great importance. In few cases, the dealers purposefully furnish false model year and month in Form 21, for registration. A few officers became the victims of their tricks (even became the accused in a vigilance case).

In this circumstance I tried to collect the data and make a hand book to identify the year and month of manufacture.

VIN (Vehicle Identification Number) is a unique identification number for a vehicle. In most of the vehicles, VIN includes the year and month codes. This book includes month and year codes for most commonly registered vehicles in Kerala.

*In few vehicles, it **punched on the identification plate** only. It should be definitely **inspected by the officers, at the time of inspection.***

One particular vehicle manufacturer has mostly same year code, even though various models. But it is different for a few models.

I express my profound gratitude to my all well wishers for their encouragement.

If any errors noted, kindly inform me for rectification.

I hope it will be helpful to the officers in our department.

Ernakulam
20-06-2016

BENOY VARGHESE
Asst. Motor Vehicles Inspector
Compiler

DISCLAIMER

This book is a reference guide for the officers in our department and not an authentic document for legal.

**CENTRAL MOTOR VEHICLES RULE MANDATES THE INCLUSION OF
MONTH AND YEAR CODES IN VEHICLE IDENTIFICATION NUMBER
(VIN)**

C M V R 122

(1) Every L, M and N categories of **motor vehicles**, manufactured on and after 1st day of April, 2009, **shall bear the identification number including month and year of manufacture, embossed or etched or punched on it**, in accordance with AIS 065:2005 till the corresponding BIS specifications are notified under the Bureau of Indian Standard Act, 1986.

(1A) Provided that in an agricultural tractor or construction equipment vehicle, where **the space is insufficient for etching, embossing or punching the engine number, chassis number and** month of manufacture, the etching, embossing or punching of **year and month of manufacture shall be on an identification plate** welded or riveted to the body of the vehicle.

(2) The vehicle manufacturer shall intimate to the certifying testing agency regarding the place where the numbers shall be embossed or etched or punched including code for the year and month of production in respect of each model and such testing agency shall include these details in the certificate of compliance granted by that agency under Rule 126.
