

Enabling Mahindra Custom Skills

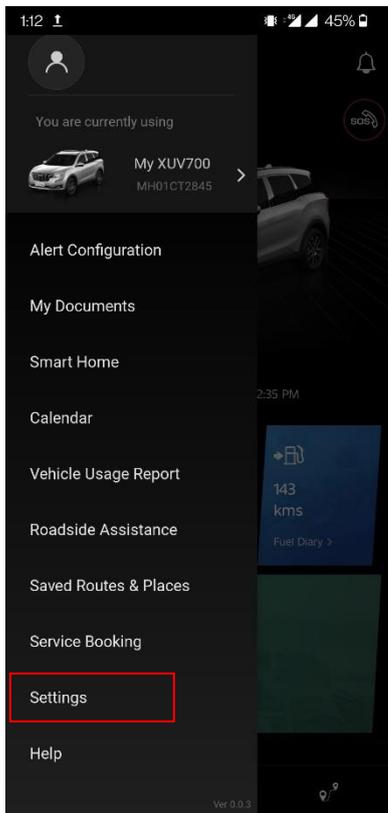

Prerequisite –

- User needs to have the Alexa app installed in their phone.
- User needs to have the AdrenoX Connect app installed & registered in their phone.

SOP for Enabling Mahindra Custom Skills

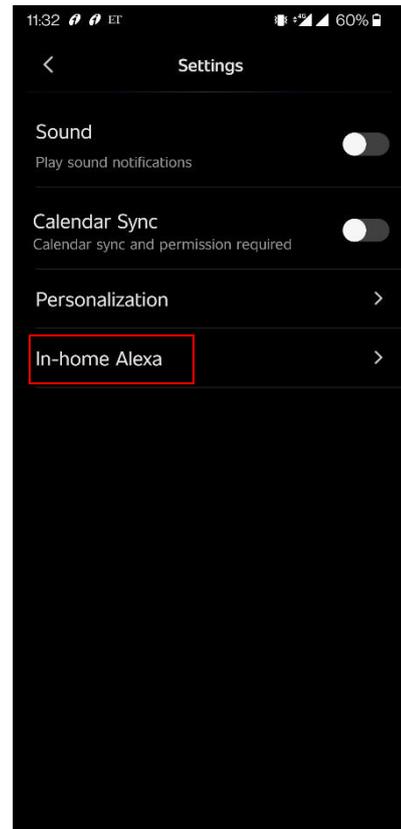

STEP 1 –

- Log in to the AdrenoX Connect App
- Press the hamburger menu on top right corner to open the menu tray
- Open 'Settings'

STEP 2 –

- Click on 'In-Home Alexa' under the Settings menu

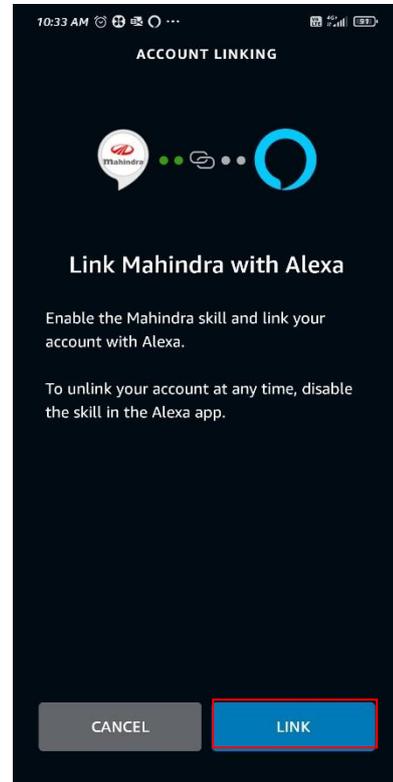

STEP 3 -

- Click on 'Continue'
- This will redirect to the Amazon Alexa app

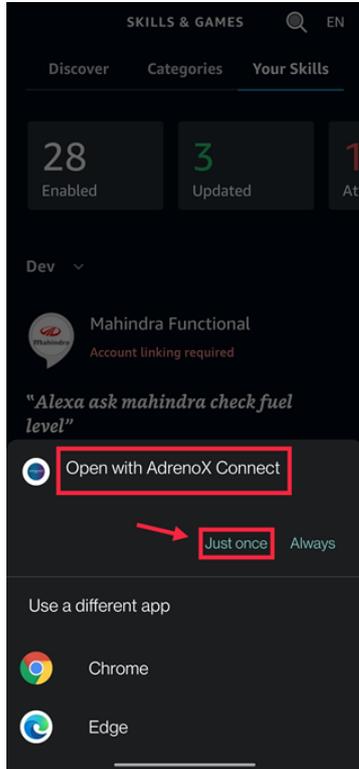

STEP 4 -

- User needs to link their Amazon Account with the AdrenoX Connect App
- Click on the 'Link' button

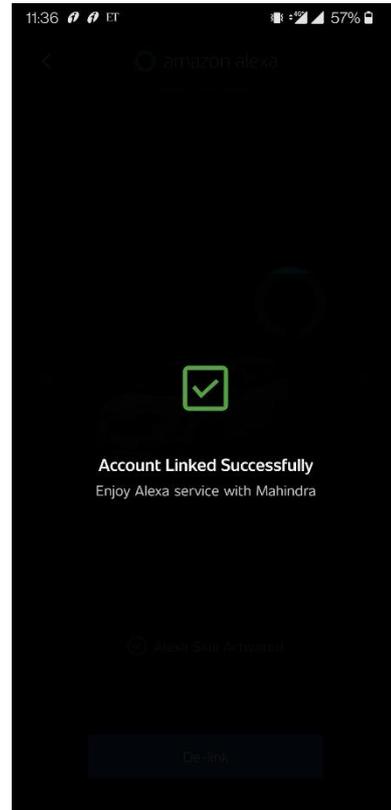

STEP 5 –

- Once linked, open the AdrenoX Connect app through the pop-screen as shown

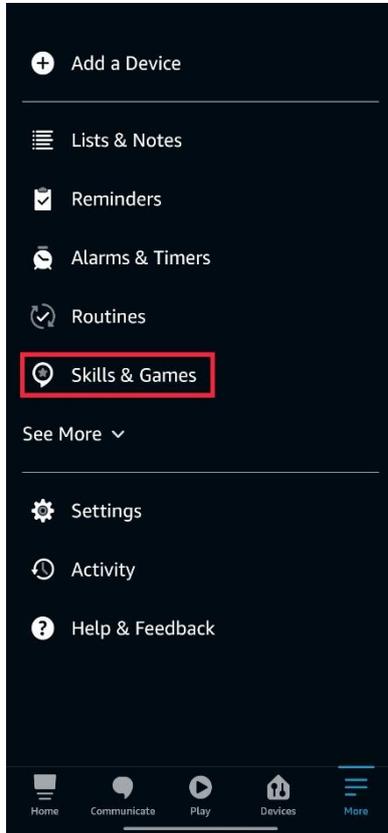

STEP 6 –

- Account linked successfully will be displayed

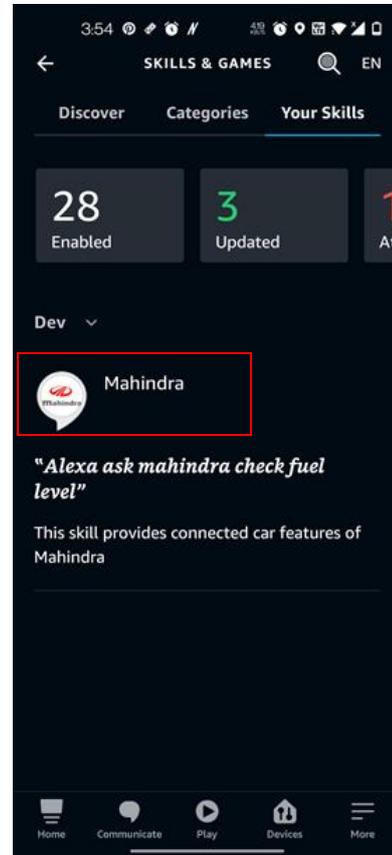

STEP 7 –

- Now open the Amazon Alexa app to grant permissions for the Mahindra Skills
- Click on 'More' Button to open the menu tray in Amazon Alexa app
- Open 'Skills & Games' option

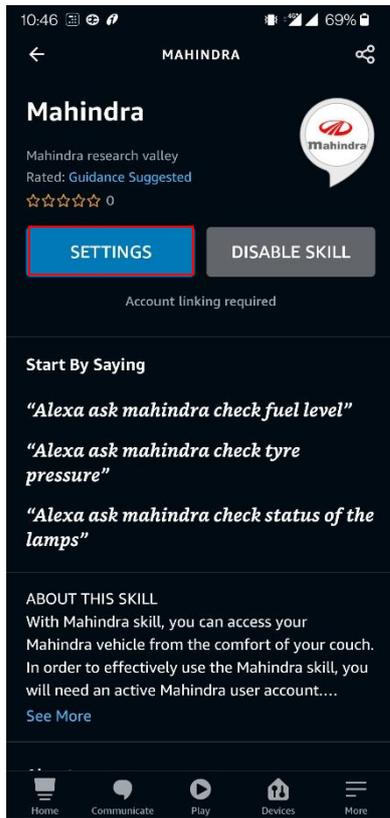

STEP 6 –

- Go to 'Your Skills' section
- Click on 'Mahindra' Skill

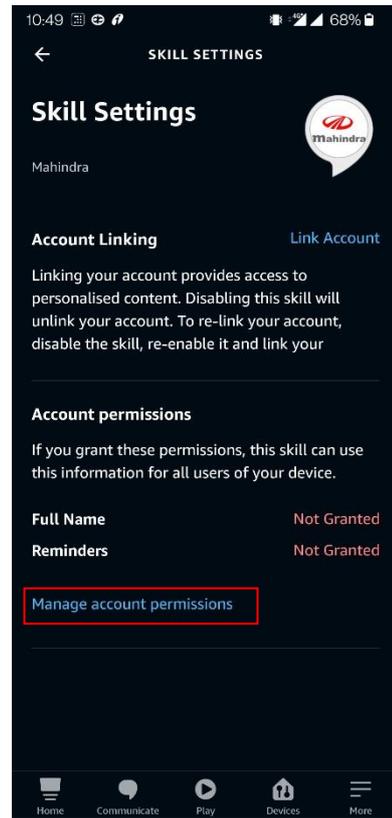

STEP 7 -

- Click on 'Settings'.

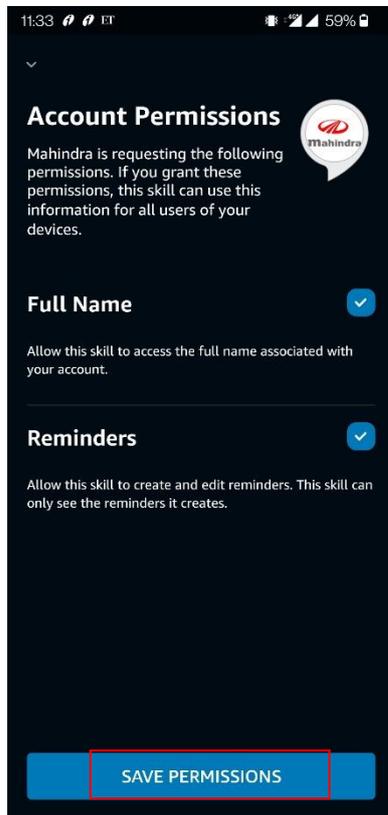

STEP 8 -

- Click on 'Manage account permissions'

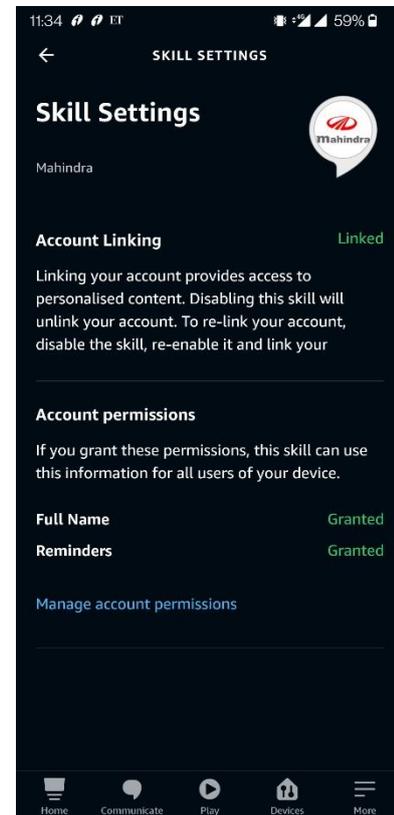

STEP 9 -

- Check or tick all the boxes to provide/grant permission to access the respective fields
- Click on 'SAVE PERMISSIONS'

STEP 10 -

- Once permissions are granted the following screen will be displayed.

STEP 11 -

Once this is done, user can experience or use the Remote Commands through Alexa enabled devices
Refer the Annexure appended below for the list of commands.

ANNEXURE – Remote Command available after enabling Mahindra Custom Skills.

The Mahindra Custom skills for Alexa should be used in the specific syntax while asking or giving any remote command every time in an active session:

The correct syntax is as follows:

- **“Alexa, Open Mahindra”** >> followed by the desire command
- **“Alexa, ask Mahindra to”** >> followed by the desire command
- **“Alexa,tell Mahindra to”** >> followed by the desire command

The Remote Commands which can be used with the Mahindra Custom Skills for Alexa are classified in 2 categories:

1. **Remote Commands 1** – These are the general commands that does not require 4-digit Remote Pin to authenticate the user.
2. **Remote Commands 2** – These commands require the user to confirm the 4-digit Remote Pin through voice (*Set in AdrenoX Connect App for Remote Vehicle Controls Operations*) for authentication before executing the command.
