TOTAL / DAY	635		
TOTAL FOR THE TRIP	3172		

Mileage: Usedd 305 Ltrs of Diesel for 3172 kms = 10.4 km per ltr (approximate calculation). Mileage is low due to very bad sections throughout MP, sudden cattle stops and spirited driving.

Handling: Very few cars could have taken the pounding by bad roads, off-road demands and come out unscatched.

MP Roads: Bad compared to Rajastan, Gujarat, Maharashtra but improving fast as reported by everyone.

GPS: Destinator, "India One" Map good in cities, about 25% of secondary roads were shown innacurate, off track.
