MEN ARE BACK

Presenting SX4 Green

VVT
ENGINE

MARUTI SUZUKI

Way of Life!

THE DRIVE OF A GENTLEMAN

The tallest car in its segment now has another reason to rise with pride. SX4 now has a CNG variant. A premium sedan with a CNG is a unique offering. But then, men who want to make a difference often take steps that are radical enough to surprise and delight. The new SX4 CNG is one such step towards a better driving experience. It goes beyond the muscle, style and sophistication to showcase a side that cares for nature. Know more about it here. And you'll know why it's the car for the man who wants to turn things around.

Amazing Experience & Unmatched Performance

- New VVT engine for optimal power, torque and efficiency
- DOHC 16 valve engine
- Speed sensitive electronic power steering for easy maneuverability

- Conforms to Bharat Stage IV emission norms
- NEW** • Equipped with Maruti Suzuki's CNG System, powered by i-GPi technology

Honeycomb Grill

Wood finished arm rests

High ground clearance

Integrated stereo

USB Port

Illuminated Key Ring

GRACIOUS HOST

Loaded with entertaining features

1. Fully integrated stereo in dashboard to unleash the music
2. USB port
3. Electrically adjustable ORVMs
4. Dual info display for temperature & time
5. Variable illumination in instrument cluster for better clarity
6. Glass antenna for clear reception

Remote embedded key for higher security.

EXCELLENT MILEAGE

PETROL MODE

14.8 K/L

CNG MODE

21.4 K/KG

ARAI CERTIFIED

RELAXED DEMEANOUR

Spacious and comfortable

- a. Large boot space to fit in more
- b. Extra headroom, elbowroom and legroom
- c. The biggest and most spacious in its class
- d. Improved suspension to ensure better ride comfort
- e. Adjustable rear head-rests
- f. Three cabin lights - driver, co-passenger & rear seat passengers

MARUTI SX4 CNG - POWERED BY THE REVOLUTIONARY TECHNOLOGY

i-GPi, the power to move extra miles!!!

Maruti Suzuki's smart i-GPi technology runs on nature's ECO fuel. The Intelligent Gas Port Injection technology (i-GPi) is eco-friendly, big on savings and is as reliable as a petrol vehicle. Moreover, it comes with Maruti Suzuki warranty, giving you a complete peace of mind!

i-GPi, the combination of power & dual brains.

SX4 Green is equipped with dual onboard computers that intelligently & intuitively control gas injection giving high fuel economy as well as driving pleasure similar to that of a petrol vehicle.

Also, your vehicle will dramatically reduce the carbon footprint.

Safer & reliable vehicle design.

SX4 Green has been specially designed keeping in mind the safety of passengers.

CNG delivery pipes and joints are made of stainless steel to prevent corrosion and leakage.

Dual Solenoid System to ensure that CNG is released only when the engine is switched to CNG mode (either automatically or manually).

Modified rear suspension for additional load of CNG system.

Special elements used to enhance engine life.

Convenience

- Easy "Change over switch" with option to switch over to eco fuel mode automatically
- Filling receptacles (NGV type) designed for faster filling rate than retro fitted kits

INTELLIGENT-GAS PORT INJECTION TECHNOLOGY

SALIENT FEATURES

- CNG is directly injected into different ports of engine near to combustion chamber resulting in homogenous combustion
- The quantity and quality of CNG injected into the engine and the change over from petrol to CNG is controlled intelligently
- The system enhances the vehicle's performance by providing improved power and acceleration with respect to conventional gas-air mixture system
- Special elements have been used for high pressure pipes, joints, engine valves and valve seats, which ensure safety, better performance and engine durability

SX4 GREEN CNG KIT VS. RETRO FITTED KITS

More secure and reliable

- SX4 CNG is designed to meet all safety standards and regulations to assure customer safety
- Dedicated ECU system for CNG has been designed and tuned for better performance, which is not the case in retro fitment
- Body designed to take the extra load of CNG system and to ensure safe layout
- Microswitch is provided in CNG receptacle cap, which prevents starting of the vehicle when CNG refilling is being done by cutting off fuel supply
- All CNG system related harnesses are integrated with main IP harness which ensures safety against fire. Loose wires in case of retro-fitment are prone to short circuit
- High pressure CNG pipes and joints are made of stainless steel whereas conventional retro fitted kits use carbon steel pipes. Stainless steel pipes and joints provide additional safety against vibration, corrosion and leakage
- Fire extinguisher provided with all CNG vehicles for safety

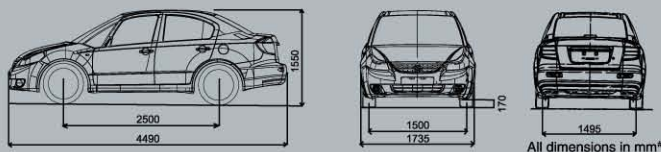

Environment Friendly

- SX4 Green complies with BS-IV norms
- ELV compliant in-line with MSIL policy

SPECIFICATIONS FOR VXI

Engine		
Type	16V DOHC, VVT	
Cylinders	4	
No. of valves	16	
Piston displacement	1586 cc	
Bore x Stroke	78 mm x 83 mm	
Maximum output	Petrol mode - 104.7 PS @ 5600 rpm CNG mode - 87 PS @ 5600 rpm	
Maximum torque	Petrol mode - 145 Nm @ 4100 rpm CNG mode - 122 Nm @ 4000 rpm	
Weight		
Kerb weight	1275 kg	
Transmission		
Manual	5 MT	
Dimensions		
Overall length	4490 mm	
Overall width	1735 mm	
Overall height	1550 mm	
Wheelbase	2500 mm	
Front Track	1500 mm	
Rear Track	1495 mm	
Ground Clearance	170 mm	
Turning Radius	5.3 m	
Chassis		
Steering	EPS	
Brakes	Front	Ventilated Disc
	Rear	Drum
Suspension	Front	Independent suspension with gas filled McPherson strut & anti-roll bar
	Rear	Semi independent torsion beam with gas filled shock absorbers
Wheels and Tyres		
Wheel type	Steel wheels	
Wheel size	15"	
Tyre type	Tubeless	
Tyre size	195/65 R15	
Capacity		
Seating	5	
Fuel Tank	Petrol - 50 litres CNG - 65 litres (water capacity)	

#For VXI variant only.

FEATURES
