CAR BROCHURE

Tata Sumo Victa

WITH YOU IN MIND

You would love to drive the Victa. The all new cockpit is configured with you in mind. The steering comes leather wrapped and is inclined at an appropriate angle for your comfort. Whereas, the new switchgear and gear knob provide that nice tactile feel. The instrument panel is easy on the eye, with a tachometer and an odometer for you to stay connected with your drive. Power window switches for all four doors are within an arms length in the conveniently located floor console. For long drives, you can adjust the lumbar support in your seat as you want it. Climate control is both in the dashboard and through a roof mounted AC.

A WORLD OF YOUR OWN

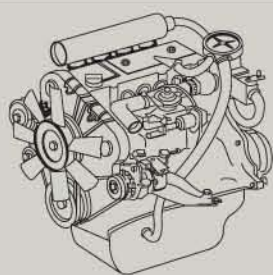

The Sumo has always been preferred for its spaciousness. The Victa adds a touch of elegance and panache with its all new interiors that allow you to use it effectively. The new seating arrangement enables you to split and fold the second row while the third row of front facing seats can be completely removed. So, you have more than half a cabin for luggage. In fact, that's 2160 litres to be precise. You also have the option of being in your own space, in a cabin that's the quietest in its class.

THE LOOK AND THE SECOND LOOK

The new bumpers, rear fog lamps and the tall clear tail lamps make a point, with the stylish spare wheel cover complementing the new yet understated look of the Sumo Victa.

THE POWER PLANT

90PS Turbocharged Intercooled Engine
